## Lowest Price - Guaranteed

Times are tough for everyone at the moment so here at Bradshaws we've introduced a price match so you can buy with confidence.
If you see a product advertised for less give us a call and we'll match that price.
The product has to be brand new, in its original condition and packaging and be in stock. Auction items and those on eBay can't be price matched. The price needs to be published, in print or on the web.
We'll verify the price before we give you the discount.

## Buy with confidence

We want you to be happy with your purchase. If you're not for any reason give us a call on 01904 696969 and we'll arrange to swap or refund your item any time within 30 days.

Products in this catalogue may differ slightly from the published photograph. All products and prices are correct at time of printing (E&OE), subject to availability and may be subject to change (customers will be notified of any changes before ordering). All sizes and specifications quoted are approximate only. Whilst every attempt is made to deliver your order promptly and in perfect condition Bradshaws Direct denies any liability for consequential loss or expense caused by faulty items or delay in despatch or delivery. In the event of an express delivery arriving outside the specified time, your delivery charge will be refunded. This is the limit of our liability. We strongly recommend that no arrangements for installation involving third party contractors are made until you are in receipt of your goods and have checked that they are satisfactory. ©Tarpaulins Direct Ltd, reg'd in England 6444238, reg'd office James Nicolson Link, Clifton Moor, York YO30 4XX

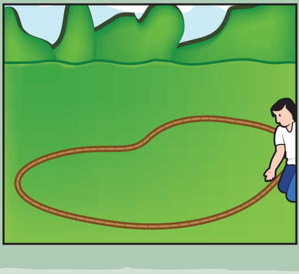
# 5 Simple Steps

## to creating your own perfect pond

## 1

### Location and size

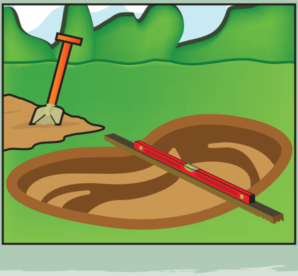
Avoid overhanging trees and boggy ground. Aim for the pond to get around 4-6 hours of sun a day. Mark it out with a hosepipe or rope so that you are happy with the size and position.



## 2

### Start digging

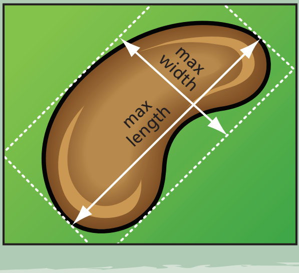
Take your time – it's hard work! Plan for disposal of the soil you dig out. Make sure that the edges of the pond are level or part of the liner will be on show when the pond is full.

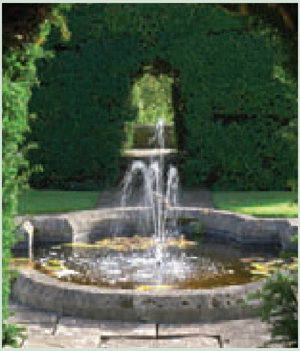


## 3

### Measure the hole

Measure the hole that you've dug and then work out the size of the liner you'll require using our simple and easy to use calculator on page 6.

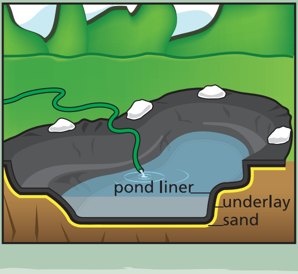




## 4

## Underlay and liner

Put a 1" thick layer of damp sand on the bottom of your pond, next comes the underlay and then finally the liner. Then simply fill up your pond with water.

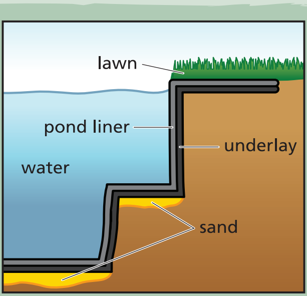


pond liner
underlay
sand

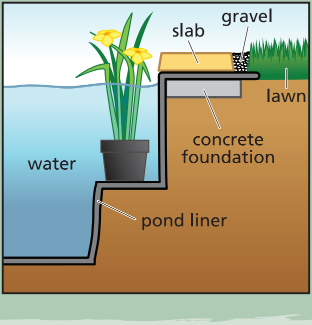
## 5

## Edge the pond

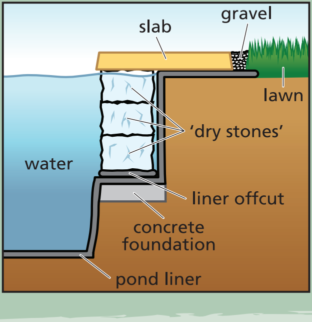
Choose a way of finishing the edge of your pond. Here are some examples:



lawn
pond liner
underlay
water
sand



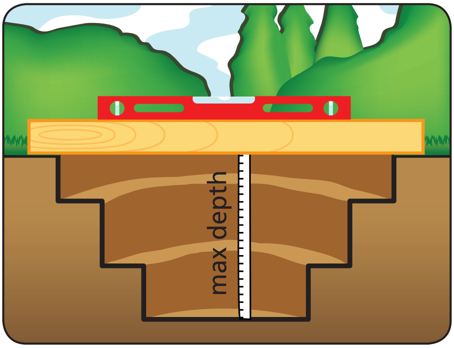
slab
gravel
lawn
concrete foundation
water
pond liner



slab
gravel
lawn
'dry stones'
water
liner offcut
concrete foundation
pond liner

# Pond and Liner Size

*It's important to work out the amount of water your pond will hold and the size of liner you'll need. Use our handy guide to help with this. Alternatively go to our website and use the pond calculator or just give us a call!*



## Measuring your pond

*To get an accurate measurement of depth, place a piece of wood or a broom across your pond and measure from that to the bottom of your hole.*

## What size liner do I need?

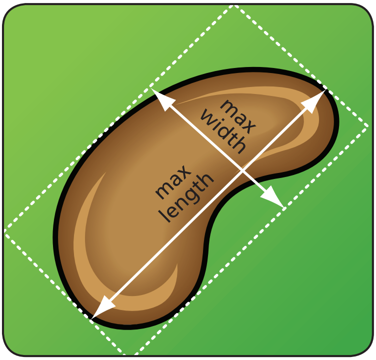
| Max. depth | | Max. depth | | Length | | Overlap | | Total liner length |
|---|---|---|---|---|---|---|---|---|
| | + | | + | | + | 1 metre | = | metres |

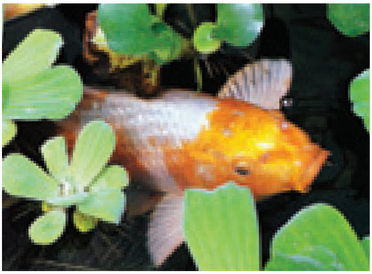
| Max. depth | | Max. depth | | Width | | Overlap | | Total liner width |
|---|---|---|---|---|---|---|---|---|
| | + | | + | | + | 1 metre | = | metres |

Multiply by 3.28 to convert metres to feet. Divide by 3.28 to convert feet to metres.

## How much water will my pond hold?

| Max. length | | Max. width | | Average depth | | | | Total pond volume |
|---|---|---|---|---|---|---|---|---|
| | X | | X | | X | 1000 | = | litres |
| metres | | metres | | metres | | | | |





## What Size Pump and Filter will I need?

A pond with lots of plants and no fish (or a few, small native fish) needs all of the water to be pumped through the filter every 2 hours.
*We call this a nature pond.*

A pond with some plants and some fish (mainly goldfish), needs all of the water to pass through the filter every 1 ½ hours.
*We call this a goldfish pond, it is by far the most common type.*

A pond with few plants and big fish, like koi, needs the water to be pumped every hour.
*We call this a koi pond.*

So if you have a pond of 3000 litres then your pump flow rate will need to be:

**Nature Pond** – Flow rate is 1500 litres per hour

**Goldfish Pond** – Flow rate is 2000 litres per hour

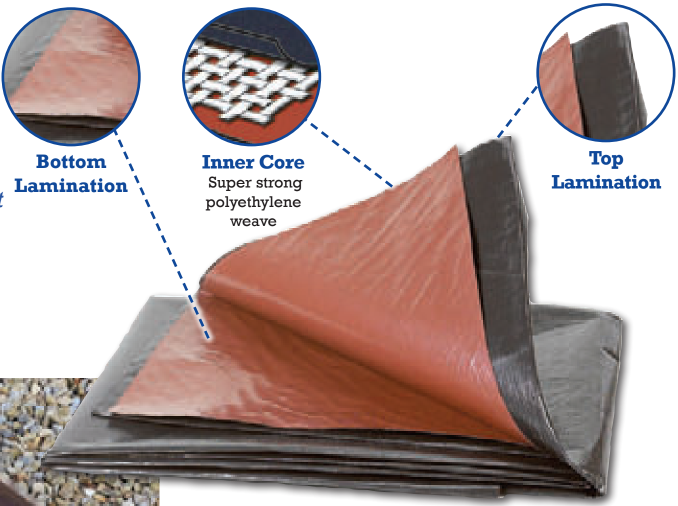
**Koi Pond** – Flow rate is 3000 litres per hour

*Once you've worked out your pump flow rate turn to page 28 to choose a pump or if you have any questions give us a call.*

# PondKraft Polyex Pond Liners

## PondKraft Polyex Liners

*PondKraft Polyex liners are exclusive to Bradshaws; we've been developing and improving them since 1980. Our Polyex liners are strong, flexible and guaranteed to last at least 25 years. They have a woven inner core between two outer layers that are UV stabilised with a rot resistant black/brown reversible finish.*



**FREE Permalay Underlay** with any 35yr guarantee Polyex Liner **Save up to £1015**

*We can only offer our extensive guarantees on PondKraft Polyex when installed with Polyfibrelay or Permalay underlay (p9).*

*We have many more sizes available, simply call us or go online if you don't see what you need.*

# Pond Liners

*Choosing the right size liner for your pond couldn't be easier: Take a look at our handy guide on page 6, visit our website or call us for help and advice on 01904 696933.*

**FROM ONLY £66.99**

## Butyl Liners

**LIFETIME GUARANTEE***

Made from top quality 0.75mm thick, Swedish butyl, a type of rubber. Butyl stretches making it highly puncture resistant and easy to fit. Butyl liners from Bradshaws are guaranteed for a lifetime when installed with Polyfibrelay or Permalay. We supply butyl liners in almost any size – just give us a call.

**Butyl Custom sizes £8.99 per square metre**

| Size in metres | 0.75mm Butyl | Size in metres | 0.75mm Butyl |
|---|---|---|---|
| 3 x 2.5 | £66.99 | 6 x 5 | £267.99 |
| 3.5 x 3 | £93.99 | 6 x 6.5 | £348.99 |
| 4 x 3 | £106.99 | 7 x 5 | £312.99 |
| 5 x 4 | £178.99 | 7.5 x 4 | £267.99 |
| 5 x 5 | £222.99 | 7.5 x 6 | £401.99 |
| 6 x 4.5 | £240.99 | 8 x 8 | £570.99 |

## SealEco Greenseal EPDM

**LIFETIME GUARANTEE***

SealEco Greenseal is a high quality alternative to butyl liner. It is the same thickness as butyl, making it just as flexible and tough but is made from a different type of rubber, meaning the price is much lower. If you were looking to buy a butyl liner but want to save money, or you just want a great quality liner at a fantastic price then this is the one to choose.

**EPDM Custom sizes £7.49 per square metre**

| Size in metres | 0.75mm EPDM | Size in metres | 0.75mm EPDM |
|---|---|---|---|
| 3 x 2.5 | £52.99 | 6 x 6.5 | £274.99 |
| 3.5 x 3 | £73.99 | 7 x 5 | £244.99 |
| 4 x 3 | £83.99 | 7.5 x 4 | £209.99 |
| 5 x 4 | £138.99 | 7.5 x 6 | £314.99 |
| 5 x 5 | £174.99 | 8 x 8 | £444.99 |
| 6 x 5 | £209.99 | | |

## Firestone Liners

**LIFETIME GUARANTEE***

Our most hard-wearing liner, made from EPDM rubber which is even stronger than butyl and more puncture resistant. At 1mm thick, it is thicker than butyl making it slightly more cumbersome, and it comes with a lifetime guarantee. If you need a heavy duty liner you can rely on for years to come, this is the one to choose.

**Firestone Custom sizes £0.90 per square foot**

*(approx. £9.69 per m²) Multiply by 3.28 to convert metres to feet*

| Size in metres | 1mm Firestone | Size in metres | 1mm Firestone |
|---|---|---|---|
| 3.05 x 2.44 | £66.99 | 6.10 x 4.88 | £269.99 |
| 3.66 x 3.05 | £100.99 | 6.71 x 6.10 | £369.99 |
| 3.96 x 3.05 | £108.99 | 7.01 x 4.88 | £308.99 |
| 4.88 x 3.96 | £174.99 | 7.32 x 3.96 | £261.99 |
| 4.88 x 4.88 | £214.99 | 7.32 x 6.10 | £402.99 |
| 6.10 x 4.57 | £251.99 | 7.92 x 7.92 | £569.99 |

**Guarantees apply when installed with Polyfibrelay or Permalay underlay.*

## Oase PVC Liners

Quality PVC pond liners which are very flexible and easy to mould to your pond shape, handy if you have a lot of shelves or tight corners. Rot proof and UV stabilized they come with extensive guarantees when installed with an aquatic underlay. Available in two thicknesses.

**0.5mm - 30 Year Guarantee*    1.0mm - Lifetime Guarantee***

**1.0mm is available on a roll in 2, 4, 6 and 8 metre widths at £5.99 per m². Call for details.**

Best Seller

## Fixing Tape

To fix underlay in place
(50mm clear tape 66m long).
**£3.49**

## Underlay

Pond underlay is essential for protecting your liner from damage from stones and other sharp items. Our pond liner guarantees only apply when underlay is used.

### Polyfibrelay Underlay

Exclusive to Bradshaws, Polyfibrelay is a thick, soft material that won't rot and will last a lifetime. Designed to protect the liner from small stones or other sharp items in the soil, it's also good at protecting against root penetration. If you have stony ground then we recommend Polyfibrelay.

**£2.05 per square metre**

### Permalay Underlay

We searched high and low for the right material to replace our old underlay and this is it! We've taken a product that is used under reservoirs and adapted it for use in the garden pond. Incredibly strong, easy to lay and made to last a lifetime, Permalay will protect your liner for years to come.

**£1.45 per square metre**

# Box Welded Liners

## Box Welded Liner

These liners are tailor made to the exact size and shape of your pond. When installed there are no creases or folds as you would find with a flat, flexible liner.

These folds can trap unfiltered water and be a breeding ground for all sorts of nasties.

The liners have a lip around the top so you can secure the edge, under flags or stones perhaps. You should make the hole the right size and line it with block work or concrete to support the shape of the liner.

- Quick and easy to install
- No unsightly creases or folds
- Liner is not stretched and should last longer
- Made from top quality 0.75mm butyl rubber
- Also available in EPDM rubber
- 10 year guarantee

| Shape | Length | | Width | | Depth | | Code | Price |
|---|---|---|---|---|---|---|---|---|
| | Feet | Metres | Feet | Metres | Feet | Metres | | |
| **Rectangular** | 8 | 2.43 | 4 | 1.22 | 3 | 0.92 | OSBWR08 | **£229.99** |

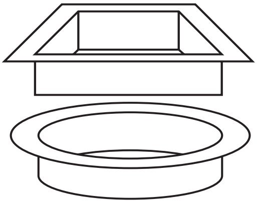
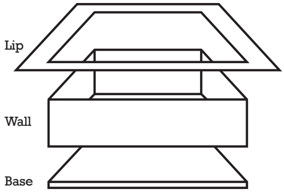
| **Square** | 6 | 1.83 | 6 | 1.83 | 2'6" | 0.76 | OSBWS06 | **£209.99** |

To make your selection easy we have included a range of popular sizes but we can make these to almost any shape and size, please call us or send in a drawing. Please allow 5-7 days for delivery. Also available in 1mm thick butyl.





# Sealants and Repair Kits

## Gold Label Pond Sealer

An excellent sealer for sticking liners together and sealing all kinds of joints. Can be used underwater. Seals plastic, rubber, PVC etc. Comes in a tube that requires a standard skeleton gun (mastic gun). 290ml. Black or clear.

| | |
|---|---|
| **Black** | **£19.99** |
| **Clear** | **£19.99** |

GOLD LABEL
POND
AQUARIUM
SEALER

## Liner Repair Kits

These kits each contain a tube of super strong adhesive and a patch of liner. The liner type should be the same as your existing liner. The surfaces need to be clean for the patch to stick, but it will work underwater!

| | |
|---|---|
| **Butyl Liner Repair Kit** | **£16.99** |
| **PVC Liner Repair Kit** | **£16.99** |

## "One Shot" Gold Label Pond Sealer

Self propelled version of the Gold Label Sealer. No need for a gun – ideal for tight spaces. 75ml. Black.

**£11.99**

## Polyfix Tape Kit

Three tapes; one double-sided (5m long), two single-sided (4.5m long) for joins and repairs.

**£8.99**

## Butyl Liner Joining Tape

For joining liners. 10 metres by 50mm.

**£23.99**

# Concrete Ponds

*The strongest type of pond. If you get it right first time your pond will last for many years. However, this method of construction can be technically difficult, expensive and time-consuming. Foundations must be reinforced and the final layer of render should include reinforcement fibres and be sealed with G4 or Lotus Ultimate Concrete Pond Sealer.*

## Render Reinforcement Fibres

Used in the construction of concrete ponds to add strength and dramatically reduce cracking, these 6mm polypropylene fibres should be added to the final layer of mortar. Approximately 20g of fibres are needed per kilogram of mortar. Supplied in 900g bags; enough for 45Kg of mortar.

**£17.99**

*Fibres for concrete also available, see our website for details.*

POND PRIDE
JUST FIX it
for PONDS
simple to use
SEALS LEAKS IN PONDS

## Just Fix It

Two-part putty for repairing cracks and holes in concrete, statues, pipe and waterfalls. Sets hard, even sets under water.

**£7.99**

## G4 Concrete Pond Sealer

If you have decided to make your pond from concrete then you will need to seal the top layer of render to stop the water getting in and the lime, which is harmful to fish, getting out. The best way to do this is with G4 Sealer. You don't need a primer, just paint it straight onto the concrete. There is a choice of clear (dries translucent) or black. You can also use G4 to coat flagstones, waterfalls, statues and other concrete products to make them safe for your pond.

| Colour | Weight | Price | Colour | Weight | Price |
|---|---|---|---|---|---|
| Clear | 500g | **£11.99** | Black | 500g | **N/A** |
| Clear | 1kg | **£20.99** | Black | 1kg | **£26.99** |
| Clear | 2.5kg | **£41.99** | Black | 2.5kg | **£57.99** |
| Clear | 5kg | **£67.99** | Black | 5kg | **£94.99** |

G4 POND SEALER
Deep bonding plastic coating for concrete
Quick - simple
G4 POND SEALER
Deep bonding plastic coating for concrete
Quick - simple

Clear: 3 coats – a total of 550g per square metre (g/m²) that you will cover.

Black: 2 coats of Clear first then two coats of Black. That's 410g/m² of Clear and 400g/m² of Black.

## Oase Pond Edge System

New from Oase this system makes a rigid edge for your flexible liner. It stops the surrounding soil from moving and gives you a clean, professional finish to your pond. It can also be used for borders and raised beds in the garden. You'll need to drive in a ground stake every 0.5m and attach it to the edging with self-tapping screws (not included).

| | |
|---|---|
| Pond Edge 25m | **£129.99** |
| Ground Stake PK10 | **£9.99** |

# Pond Vacuums

## Pond-Side Vacuums

These vacuums sit at the side of your pond and suck silt and sludge from the bottom of your pond like a vacuum cleaner.

### Pontec Pondomatic Pond Vacuum

**2 year guarantee**

Sucks up sludge and collects it in a tank. Automatically turns off and empties the tank, then turns back on and the cycle repeats.

- 4 metre suction hose
- 2 metre discharge hose
- 3 nozzles
- 1400 watts

**Was ~~£99.99~~ Now £89.99**

**FREE GLOVES**

**When you buy a Pondomatic or Pondovac Classic Pond Vacuum**

### Oase Pondovac Classic

**2 year guarantee**

Sucks up sludge and collects it in a tank. Automatically turns off and empties when full. When it has emptied it turns back on again and the cycle repeats.

- 2.5m discharge hose - 5m suction hose
- Removes solids up to 10mm
- 3 nozzles
- Comes with a strainer bag

**£149.99**

**Visit our website for full details**

### Tornado Pondvac

**3 year guarantee**

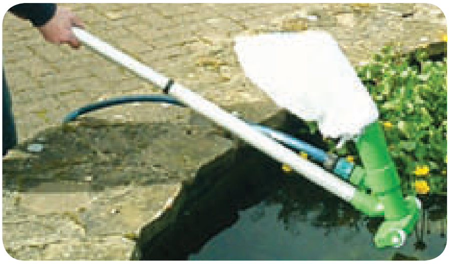
Hose powered vacuums are connected to a normal hosepipe and then to the tap.

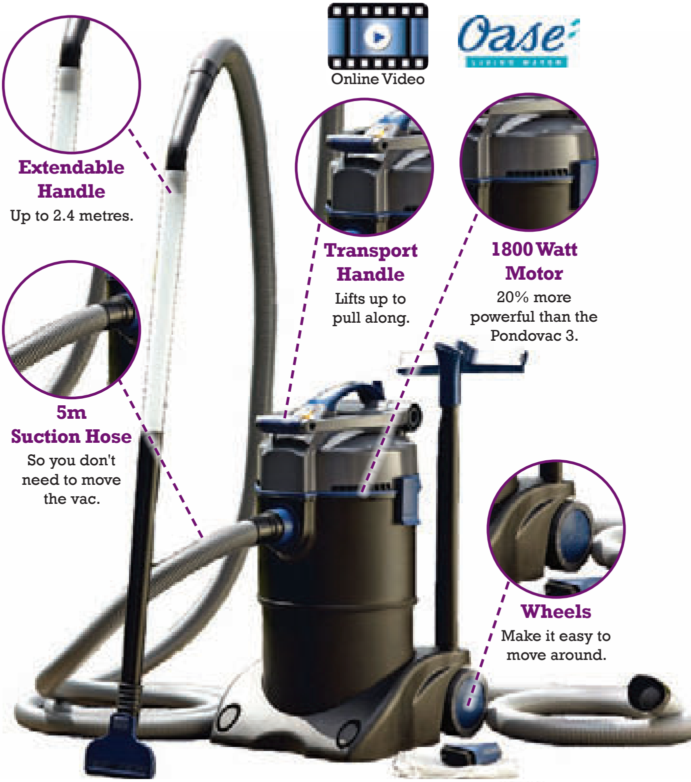
When the water is turned on it creates a low-pressure area in the head of the pond vacuum which sucks up debris.

- Lightweight telescopic handle 90cm (3') long

**Was ~~£24.99~~ Now £20.99**

**Visit our website for full details**





Online Video
Extendable Handle
Up to 2.4 metres.
Transport Handle
Lifts up to pull along.
1800 Watt Motor
20% more powerful than the Pondovac 3.
5m Suction Hose
So you don't need to move the vac.
Wheels
Make it easy to move around.

## Oase Pondovac 4

**3 year guarantee**

The latest in the Pondovac range. Having sucked up the muck it sends it down a hose to be directed at the flowerbeds (for fertiliser) or the drain. Mesh bag included to strain water and let it back into the pond.

- Continuous operation (does not stop to empty)
- Wet and Dry nozzle for floors (indoor or out)
- Max suction depth 2.4m
- Additional nozzles and tools
- Removes solids up to 10mm
- 2.5m discharge hose - 5m suction hose

### Hozelock Flood Pump

This pump is meant for pumping out flood water but it can also be used to empty your pond or as a standby pond pump. It will pump water containing 30mm solids to a maximum head of 6 metres.

**£59.99**

**Visit our website for full details**

# Waterfalls

## Rockways Rustic Slate Watercourse

This incredibly realistic, slate finish watercourse comes in three parts. This lets you position each part to make the waterfall you want.

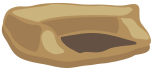
If you want to make the waterfall bigger you could order an extra middle section. Or if you'd like to go smaller , just order the top and bottom sections.

Each part is made of reinforced concrete.

There's a discreet hose inlet in the top piece for 32-40mm hose and the suggested flow rate is 2500 – 4000 Lph.

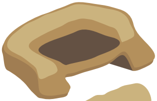
**A. Top** – shelf and inlet
L70 x W105 x H15cm
**£119.99**

(a)



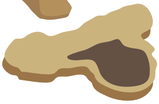
**B. Middle** – shelf
L70 x W105 x H15cm
**£119.99**

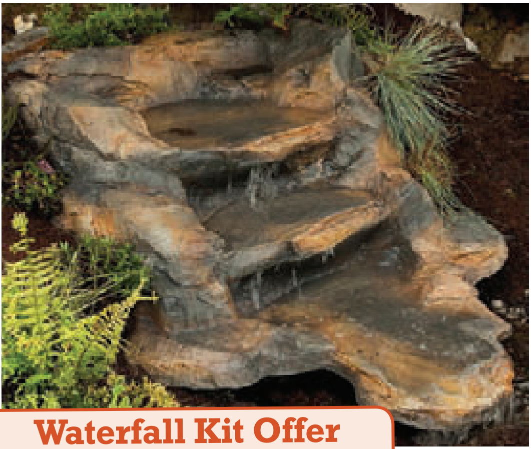
(b)



**C. Bottom** – shelf overhang
L83 x W109 x H12cm
**£119.99**

(c)





### Waterfall Kit Offer

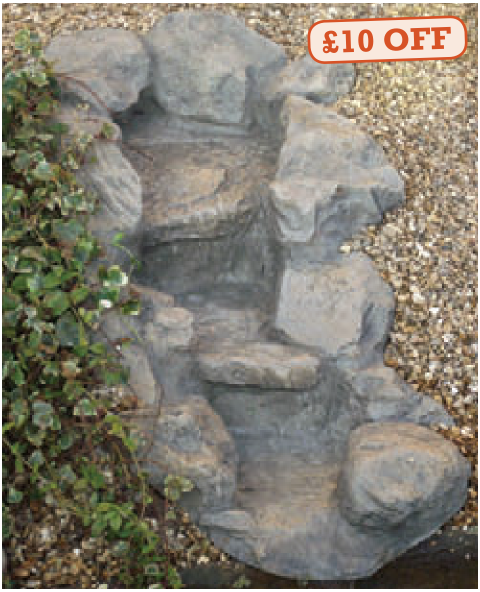
All 3 pieces, Pondkraft Eco 3500 Pump (p31), 5 metres of 32mm hose and clips.

**Just £369.99 Saving £85.95**

## Resin Version

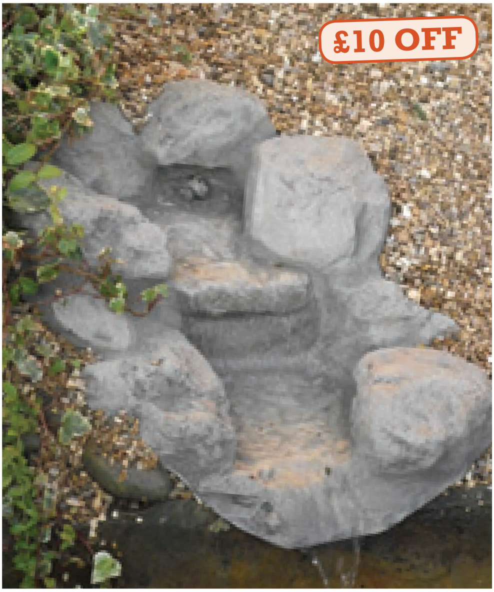
We can also supply this waterfall in fibreglass resin. This version is the same but comes in one piece rather than split into three. It's a lot lighter but doesn't give you the same options for placing it as the modular version. Prices are the same, just let us know if you want the Resin version when you order.

*Each of these Atlantis fibreglass waterfalls is amazingly detailed and realistic. They all come complete with an integral hosetail and discreet water entry area so they look completely natural. Accepts hose size 20 – 25mm.*



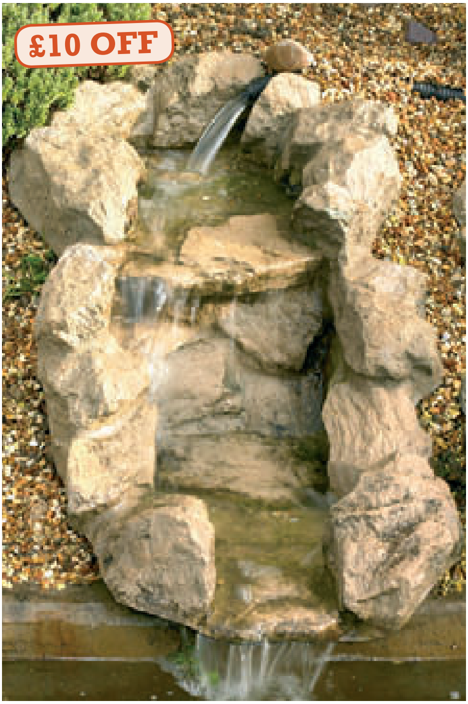
## Atlantis Double Step

L90cm x W51cm x H24cm **Was ~~£89.99~~ Now £79.99**



## Atlantis Single Step

L60cm x W42.5cm x H19cm **Was ~~£64.99~~ Now £54.99**



## Atlantis Oasis Highland Cascade

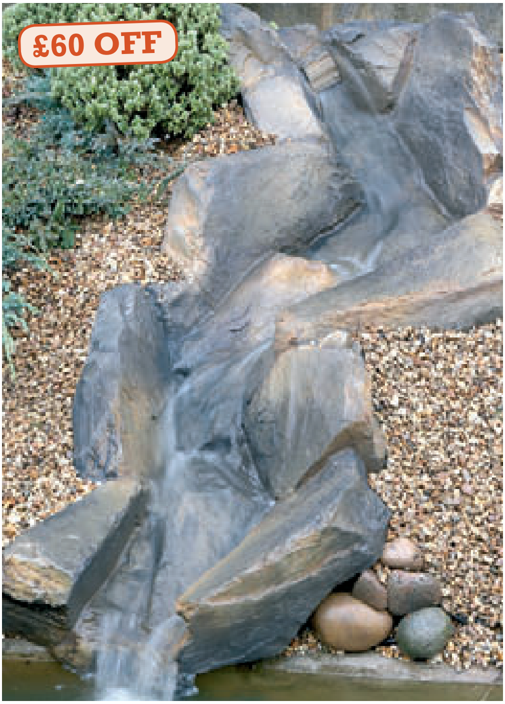
**Was** ~~£179.99~~ **Now £169.99**



## Rockways Deep River Canyon Waterfall

Maximum flow 6000 litres per hour.

L140cm x W80cm x H48cm **Was** ~~£239.99~~ **Now £179.99**

## Niagara Stainless Steel Waterfall

Give your pond a contemporary look with one of our stainless steel waterfalls. They deliver a perfect sheet of water with amazing reflective qualities. Optional LEDs light the waterfall from behind creating a stunning centrepiece after dark.

They can be fitted in a variety of ways depending on the look of your pond (see pictures) either built in or fixed to a wall. Each comes with a hosetail that can be sited at the back of the waterfall or in the base (and a blanking plug for the other one).

| Model | Width cm | Flow rate lph* | Price |
|---|---|---|---|
| **Niagara 30** | 30 | 4000 - 7000 | **£119.99** |
| **Niagara 30 LED** | 30 | 4000 - 7000 | **£159.99** |
| **Niagara 60** | 60 | 13000 - 18000 | **£189.99** |
| **Niagara 60 LED** | 60 | 13000 - 18000 | **£229.99** |
| **Niagara 90** | 90 | 20000 - 28000 | **£264.99** |

*This is the flow rate at the waterfall, please allow for height difference and friction loss. Call for technical advice.

PondKraft

## PondKraft Solar Fountain Pump - Plus

Combining all the benefits of the standard PondKraft Solar Fountain Pumps with lots of extra features these are sure to be bestsellers. You can turn on the fountain anytime you like because a battery in the control unit stores power from the solar panel. It has a memory function too so it comes on at the same time each day for 3 hours. It's easy to change the 'on' time. After dark the LED lights will come on and light up your fountain, adding ambience to your garden.

| Model | Capacity height | Fountain | Was | Price |
|---|---|---|---|---|
| **PondKraft 150 Plus** | 150lph | 35cm | ~~£39.99~~ | £33.99 |
| **PondKraft 300 Plus** | 300lph | 55cm | ~~£69.99~~ | £58.99 |

*Solar powered pumps offer the easiest way to add movement and life to your pond. There are no electrical connections to make and no bills to pay. If you are looking for a 'green' solution or it's just too far to run a cable, this could be the choice for you.*

£10 OFF

Comes complete with lights and battery

## PondKraft Floating Solar Lily with LEDs + Remote Control

The latest version of this fountain. Sit it on the water surface, turn it on with the remote and it'll run for 2 hours. Need it on for longer? Just click the remote again. Battery charges when it's sunny so the fountain works when you want. 4 built-in LEDs come on automatically after dark to add another dimension to your garden. Fountain height 35cm. Remote control range – 10m around the lily. Choice of spray modes and fountain heads.

**Was** ~~£49.99~~ **Now** **£39.99**

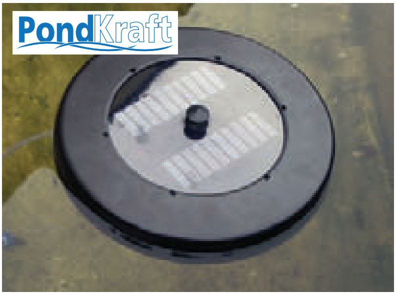
## PondKraft Twin Outlet Solar Oxygenator with Battery

**1 year guarantee**

This pump will charge when the sun is shining, you can set it to run either in the day or at night time using a button on the panel. It's better for ponds to have air added during the night as this can be when oxygen levels are at their lowest.

- 200lph capacity
- 2 air stones
- 2m airline with each stone
- 3m cable to solar panel

**£49.99**



## PondKraft Solar Floating Oxygenator

**1 year guarantee**

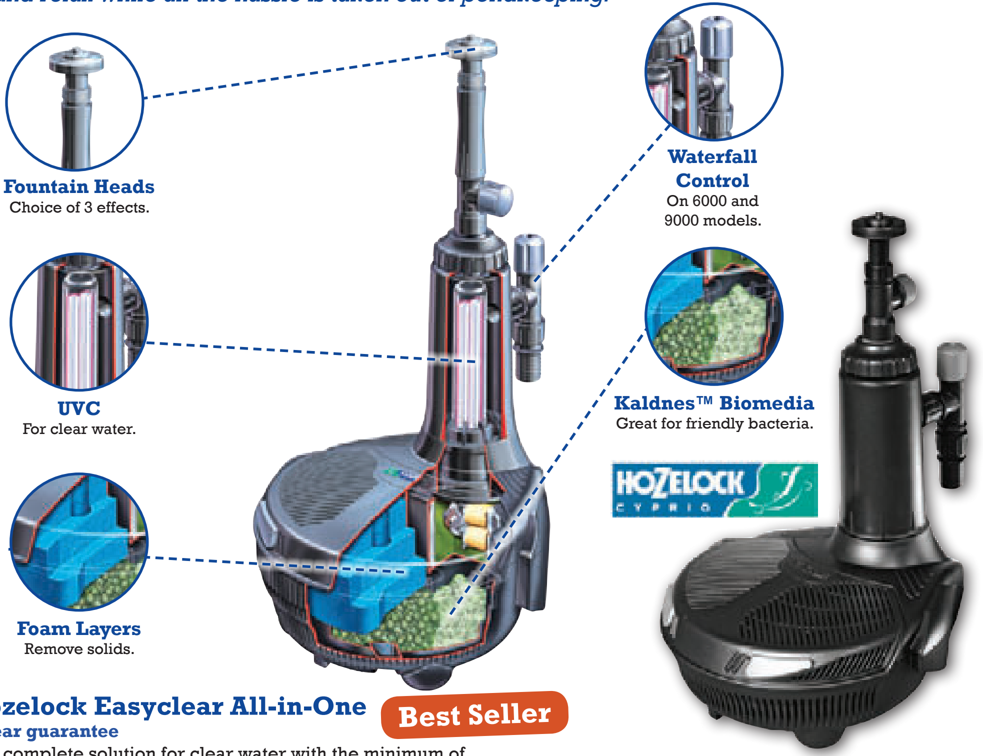
The simplest air pump ever. Take it out of the box, place it on your pond and that's it. When the sun shines on the panel the pump will work adding oxygen to your pond. No running costs, no cables and no worries.

- 100lph capacity
- 50cm airline with air stone

**£34.99**

# All-in-One Pumps

*The easiest way to ensure you have crystal clear, clean water every day of the year. Just plug in and relax while all the hassle is taken out of pondkeeping.*



**Fountain Heads**
Choice of 3 effects.

**UVC**
For clear water.

**Foam Layers**
Remove solids.

**Waterfall Control**
On 6000 and 9000 models.

**Kaldnes™ Biomedia**
Great for friendly bacteria.

## Hozelock Easyclear All-in-One

**Best Seller**

**3 year guarantee**

The complete solution for clear water with the minimum of fuss. Simply place in the pond, connect one cable and sit back. Simpler than traditional pump, filter, UVC kits the Easyclear comes in a choice of three models. All have:

- Filter for clear and healthy water.
- Kaldnes biomedia for improved biological filtration.
- Fountain flow control for easy adjustment of fountain height.
- Fountain stem extensions for different depths of pond.

Crystal clear water guaranteed.

The 3000 can only operate a fountain or waterfall, the 6/9000 can do both at the same time.

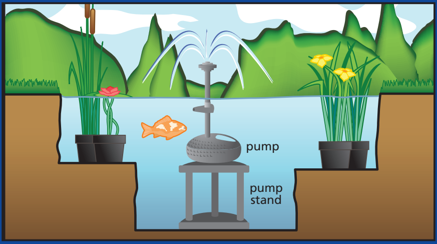
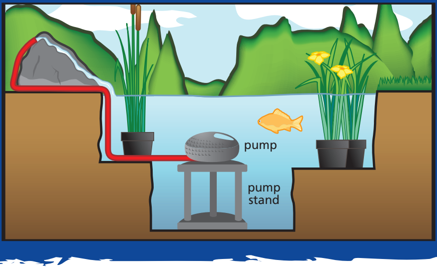
# Installing a fountain

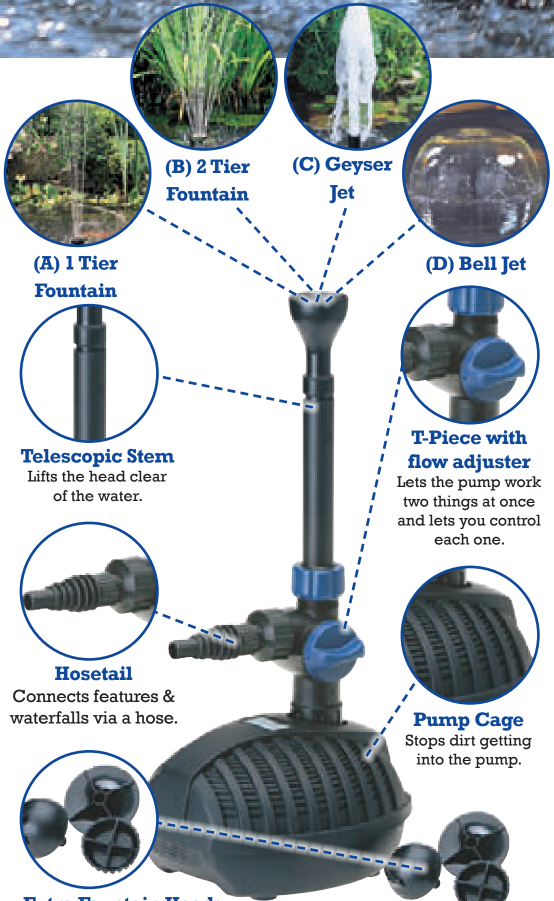
*Fountain pumps come with everything you need to create a range of effects. Ensure you choose a fountain height to suit your pond.*

*Most will also let you run a small waterfall or feature (like a spitting frog). If you want to do this then you'll need a more powerful pump. Go up one size for a spitter, for waterfalls use the table on page 28.*

*All our fountain pumps come with a 10m mains cable. We advise using a circuit breaker (RCD) for safety.*







**Telescopic Stem**
Lifts the head clear of the water.

**T-Piece with flow adjuster**
Lets the pump work two things at once and lets you control each one.

**Hosetail**
Connects features & waterfalls via a hose.

**Pump Cage**
Stops dirt getting into the pump.

**Extra Fountain Heads**
For different effects, see above.

## PondKraft Fountain Pump

**3 year guarantee**

Part of the great value PondKraft range of pond equipment these quality pumps have an easy maintenance 'no-clog' cage and come with a range of fountain attachments. Each one also comes with a telescopic extension pipe and a T piece so you can run a waterfall or spitting feature too.

*Note: The 750 will only operate a fountain or spitter, not both.*

PondKraft

**FREE**
**PondKraft LED Light Worth £14.99**
**(see page 89) with any PondKraft Fountain pump.**
*Applies to full price pumps only.*

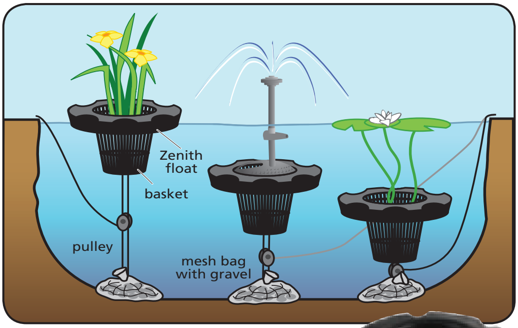
## Aqua Varia Pump Stand

Lets you have a fountain in a deeper pond and keeps your pump off the bottom and away from the silt and debris that can clog it up. You can alter the height depending on the depth of your pond. Height: 35 – 65cm.

£39.99



## Zenith Pump/Plant Float

This great new product lets you float your pump at any depth in the pond. Also allows plants to be placed at the right depth. Simply fill the anchor bag with gravel.

Comes with: Float Ring, Pump Basket, Spare Plant Basket, Pulley and Cord and Mesh bag

*Gravel not supplied.*

**Zenith Pump/Plant float** £34.99

# Fountain Pumps

## Fish Mate Pond Pumps

**3 year guarantee**

A world-leading range of pond pumps that can pump up to 20,000 litres per hour. All of the pumps feature a pond-life friendly anti-clog filter design and the running costs are among the lowest on the market. Each pump comes with four fountain heads and a 2-way outlet with flow control, so you can have a waterfall and a fountain.

(This feature is not available on the 700 model).

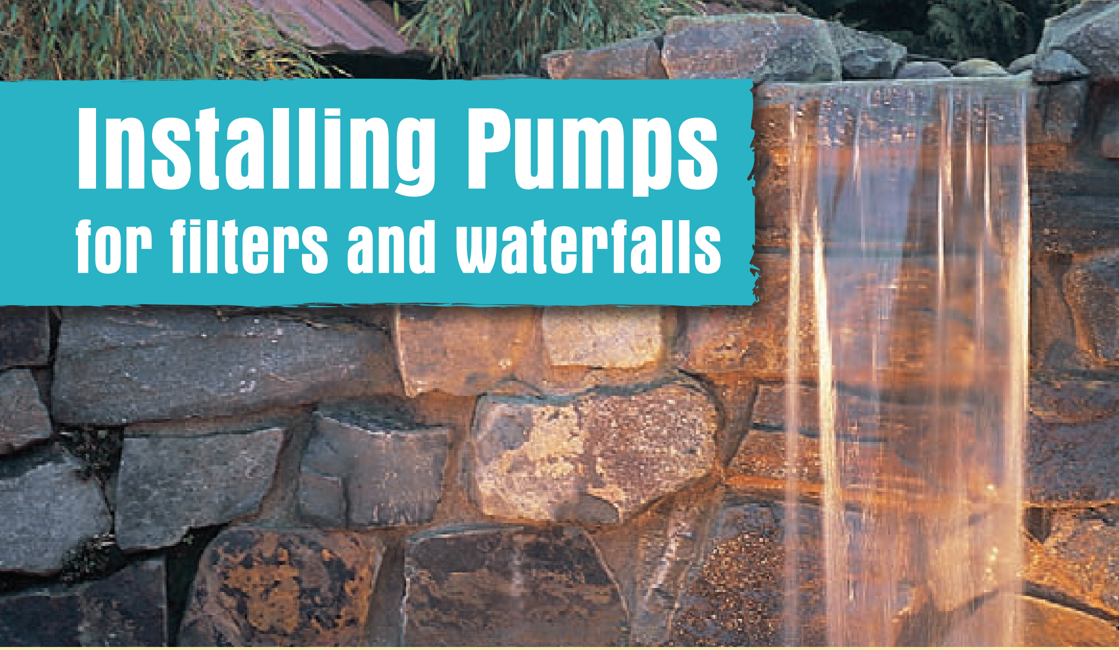
# Installing Pumps

## for filters and waterfalls



**This is the kind of pump you need to run a filter and/or a waterfall. They're designed to suck in big bits of dirt from the pond and send them to the filter, so they rarely clog up and need very little maintenance.**

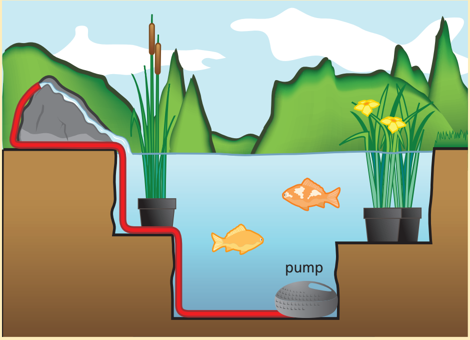
**Water is pumped out of the pond and into the filter, coming back down a waterfall or via a return pipe. You need a pump that moves the water fast enough to keep the pond clean.**

### What size do I need?

Use our guide on page 6 to work out how much water your pond holds and calculate your pumps flow rate.

### Pumping uphill

Pump flow rates are reduced when they pump uphill. An Aquaforce 6000 will pump 6000 litres an hour on the level, if it is pumping the water 1m (3'3") higher than the pond surface it'll pump 4750 litres per hour. In most ponds the water is lifted around a metre out of the pond so all our pumps show the flow rate at 1m (3'3"). For different heights give us a call and we'll advise on the type of pump you need.



### What pump do I need for my waterfall?

| Width of waterfall | | A thin film of water over a ledge | |
|---|---|---|---|
| Inches | cm | Gallons | Litres |
| 6 | 15 | 300 | 1400 |
| 12 | 30 | 900 | 4000 |
| 16 | 40 | 1300 | 6000 |
| 20 | 50 | 1650 | 7500 |
| 24 | 60 | 2850 | 13000 |

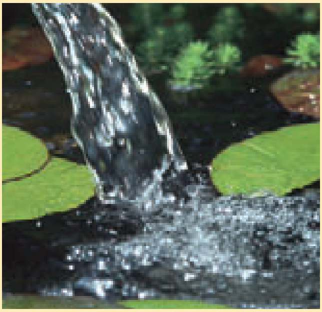
## When choosing consider

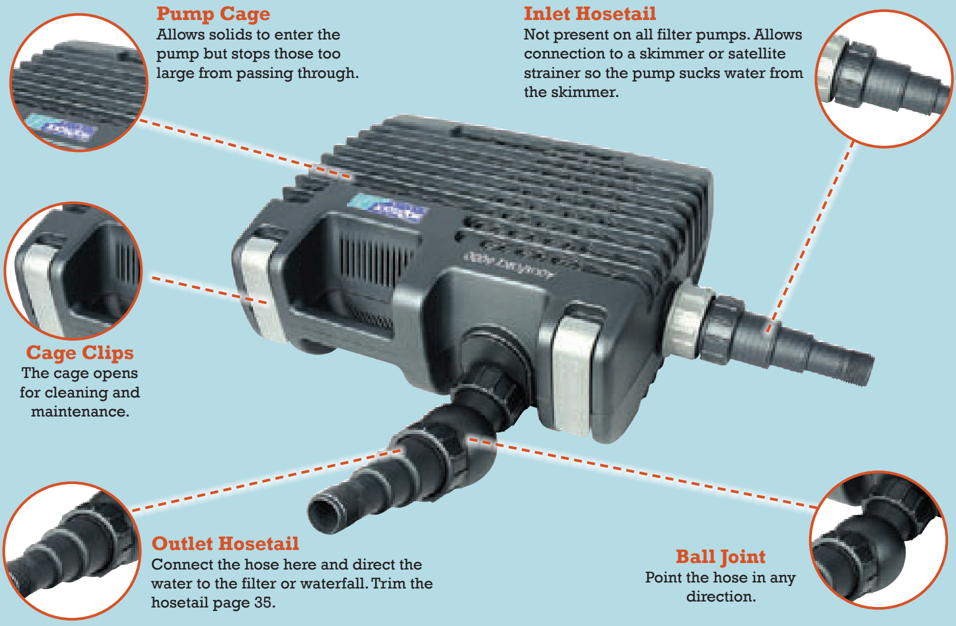
**Solids Handling** - the size of particles that can pass through the pump – the bigger the number the less often it will block up.

**Running Cost** - filter pumps must run 24 hours a day so low wattages can mean big savings.

**Extra Features** - some pumps have two inlets and can be used with a skimmer, some can protect the wildlife in your pond from harm. Have a look at the pump description for details.

*All our filter pumps come with 10 metres of cable for connection to the mains and we advise a circuit breaker (RCD) for safety. They can also take different hose sizes. Always use the biggest hose size that your pump and filter will allow or you'll lose flow rate.*





**Pump Cage**
Allows solids to enter the pump but stops those too large from passing through.

**Inlet Hosetail**
Not present on all filter pumps. Allows connection to a skimmer or satellite strainer so the pump sucks water from the skimmer.

**Cage Clips**
The cage opens for cleaning and maintenance.

**Outlet Hosetail**
Connect the hose here and direct the water to the filter or waterfall. Trim the hosetail page 35.

**Ball Joint**
Point the hose in any direction.

# Filter Pumps

## PondKraft Koi Filter Pump

**2 year guarantee**

When you really need to move a huge volume of water but don't want to break the bank, these pumps are the ideal choice. A stainless steel body protects the pump and allows 8mm solids into the pump. The outlet is 3" and fits solvent weld pipe or rubber connectors from Evolution Aqua, these will let you connect to any size pipe you like.

## PondKraft Eco Filter Pump

**3 year guarantee**

New for 2013 these pumps are designed to be very cheap to run and trouble free. The shaped cage and 6mm solids handling capacity means they'll rarely need cleaning. The wattage is even lower than the 2012 design and is comparable with some of the most expensive pumps on the market. Available in a huge range of sizes and comes with a three year guarantee. Fits hose size 20-40mm.

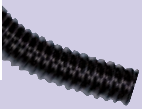
# Hose and Fittings

## Picking the right size hose

Picking the right size hose is easy. Just look at your pump's outlet size (in mm) and your filter's inlet size (in mm). Pick the largest one that appears in both and that is your hose size. It's important to choose the biggest hose size you can as this will maximise the water flow. Or you could just give us a call on 01904 696933 and we'll do the rest.

**Example:**

Aquaforce 2500 pump (p30) outlet size is 20-40mm connecting to a Revolution 4500 Filter (p41) inlet size 20-25mm. The biggest size that they will both take is 25mm so that is the size you should choose. Other fittings should always be the same size as the hose, so if you have 25mm hose you need 25mm clips, taps etc.



**Polyhose 5m**

# Hose and Fittings

## Oase Y Distributor 1½" with Flow Control

One inlet and two individually adjustable outlets. Inlet fits hose of 20, 25, 32, 40 or 50mm (¾", 1", 1 ¼", 1 ½", 2") size. Outlet fits 25, 32 and 40mm. For underwater use only.

**£29.99**

## Oase Inlet Tee Piece

3 way connection to join a range of hose sizes. Fits 20, 25, 32, 40mm.

**£17.99**

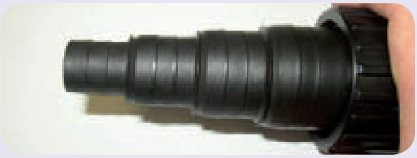
## Oase Flow Regulator 1½"

Fits hose of 25, 32 or 40mm (1", 1 ¼", 1 ½") size.

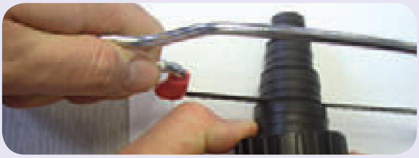
**£24.99**

## Attaching a hose

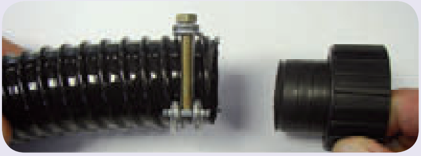
Follow the stages pictured below. Always use the biggest size hose you can to maximise water flow. In our pictures we show the hose tail removed from the equipment, you can leave yours attached to your pump, filter or UVC while you make the connection if you wish.



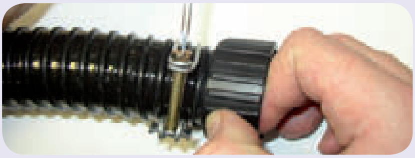
Hose tail on pump, filter or UVC



Trim the hose tail to suit your hose



Put clip on hose and then hose on tail

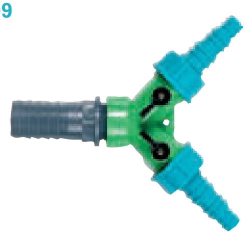


Tighten up clip to make it watertight

## Y Adaptor

3 way reducer allows the connection of different hose diameters. Fits 12, 20, 25, 32mm.

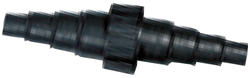
**£13.99**



## Flow Control Y

3 way adaptor that has taps on the 2 outlets. Fits 25mm inlet and 25, 20, 12mm outlets.

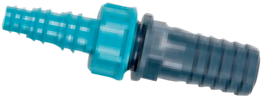
**£12.99**



## Uni Adaptor

2 way reducer to connect hose of differing diameters. Fits hose sizes 20, 25, 32, 40mm.

**£11.99**



## Mini Uni Adaptor

2 way reducer to fit hoses 12, 20, 25mm.

**£6.99**

## Oase Water Distributor

4 way adaptor. inlet suits hose size 20-30mm (¾" to 1½"). One of the outlets can be capped off, flow tap on each outlet. Choose outlet size.

| | |
|---|---|
| 12mm (½") | **£14.99** |
| 20mm (¾") | **£14.99** |
| 25mm (1") | **£19.99** |

# Installing a pond filter

## A filter keeps your pond water clean and safe for your fish. If you get the right one then you'll never have green water again.

All filters need a pump to push the water from the pond and into the filter. They contain various types of media that clean the water mechanically (like a coffee filter) or biologically (using friendly bacteria).

Almost all filters come with an Ultra Violet Clarifier (UVC), that stops the pond going green.

You'll need to clean the filter out from time to time when the flow out of it is reduced. Always clean the media with pond water to protect the friendly bacteria.

Most UVC filters come with a 3 metre cable to connect them to the mains. Unlike pond pumps this cable can easily be replaced if a longer one is needed.

The bulb in your UVC filter should be replaced every spring *(even if it still lights up)*.

### What size filter do I need?

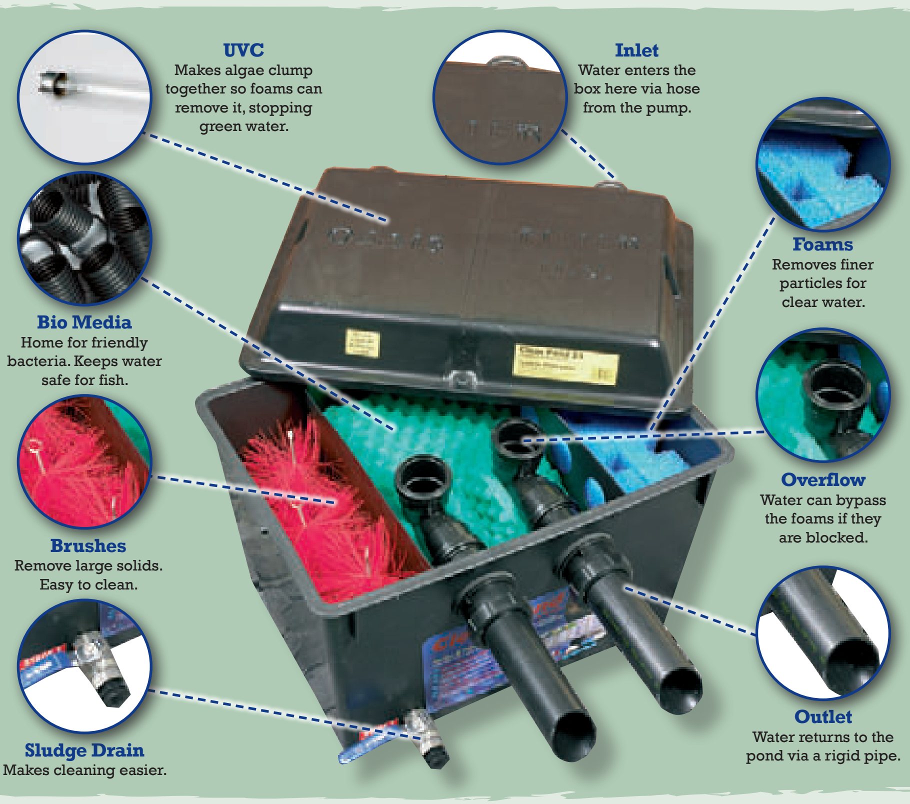
Your filter's maximum flow rate should be at least as much as the output from your pump.

If your chosen filter is bigger (i.e. has a higher maximum flow rate) than you need then that's fine, it means you'll have to clean it out less often.

To work out what pump flow rate you need turn to page 6, to look up the flow rate of your pump turn to pages 28-33.

### Ultraviolet Clarifiers (UVC)

UVC's work together with a pump and a filter. Separate UVC's like those on pages 54-56 are for adding to an existing pump and filter system which doesn't already have a UVC or a system where the UVC needs replacing.



**UVC**
Makes algae clump together so foams can remove it, stopping green water.

**Bio Media**
Home for friendly bacteria. Keeps water safe for fish.

**Brushes**
Remove large solids. Easy to clean.

**Sludge Drain**
Makes cleaning easier.

**Inlet**
Water enters the box here via hose from the pump.

**Foams**
Removes finer particles for clear water.

**Overflow**
Water can bypass the foams if they are blocked.

**Outlet**
Water returns to the pond via a rigid pipe.

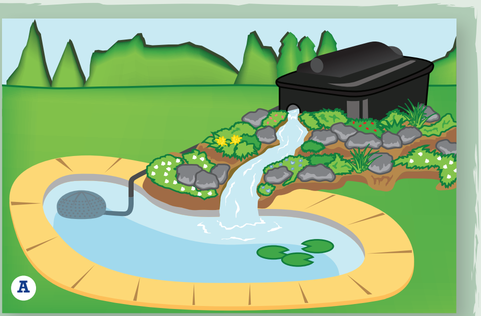
## Where do I put my filter?

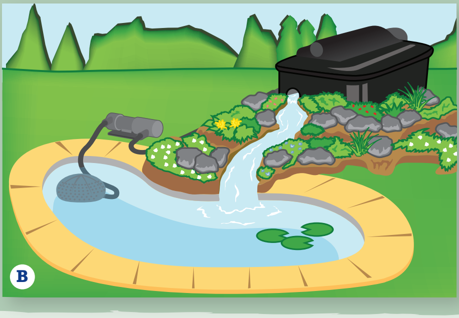
These diagrams show the main ways to install a pump and filter.

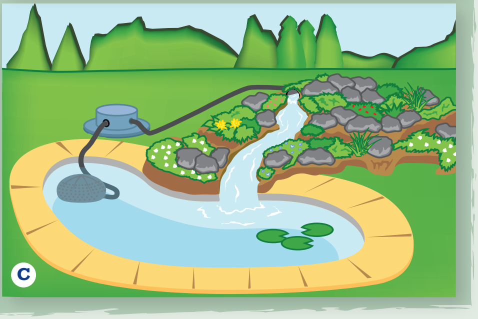
**A.** Box filter is put at the top of the waterfall (usually with a built in UVC).

**B.** A UVC can be added in line if you are upgrading an older system.

**C.** Pressurised filter sited below top of the waterfall and partially buried, so it's easier to hide.







# Pressure Filters

## Oase Biopress Set

from only **£159.99**

HALF RRP PRICE

**2 year guarantee**

The Oase Biopress Kit contains a Biopress Pressurised Filter and an Oase Filter Pump. Both of these products are made to Oase's high standards and are excellent quality. The Biopress kit guarantees clean, clear water with varied filter media and an effective UVC. Hose size on the inlet and outlet is 20-40mm.

- Easy cleaning of the filter via the cleaning mechanism and swapping a hose
- Cable length on filter - 3m (10m on pump)
- Quick release clamps for easy opening of the filter
- Can be partially buried
- Range of media to promote friendly bacteria growth

## PondKraft Pressurised Filter from only £69.99

**2 year guarantee**

These brand new filters from PondKraft have all the features that you need. The pollution indicator tells you when cleaning is needed and the Easy Cleaning feature makes it a breeze. Just turn the handle to 'clean' and the foams are back flushed by the water removing most of the dirt. Turn back to 'run' and you're done. When you add a pump you'll get the powerful and reliable PondKraft Eco Filter Pump (see page 31).
Hose size 20-25mm on 4000, 20-40mm on other models.

# Pressure Filters

**Velda Clear Control Heaters and UVC's**
**available separately see our website for details and prices**

## Velda Clear Control

**2 year guarantee**

The Velda Clear Control is a rugged pressurised filter with a range of unique features. Inside the filter are a range of bio media including activated carbon, biological substrate and foams.

The filter has a control handle that can be set to 6 positions:

1. Back flush, for easy cleaning
2. Back wash the valve, to ensure proper running
3. Drain the pond, if you need to!
4. Filtration, for normal running
5. Medicine, bypasses the filter materials so that treatments are not removed from the water and are more effective
6. Stop, for pump cleaning

The filter has two ports to fit either UVCs or Heaters, so you can increase the UV capacity if you need to, swop them out for heaters in the winter or have one of each. A UV comes with the filter.

Hose size 25-40mm

The Clear Control is available, with a UVC or as a complete kit with the Velda High Stream Filter Pump (3 year guarantee). The complete kit also includes 5 metres of hose and clips.

## You may also like...

### Fishmate Pressurised

These filters feature the 'Powerclenz' cleaning mechanism (except the 5000 model). Just turn the dial from 'normal' to 'clean' and the water flow changes direction, back-flushing the filter, and the foam layers are squashed removing dirt and sludge. The dirty water is then pushed out of a second outlet, down the drain or into the flowerbeds.

25mm on the 3000 model)

## Hozelock Bioforce Revolution

**2 year guarantee**

Pressurised filter and filter kit with a revolutionary cleaning function. Kit comes complete with a Hozelock Aquaforce pump. This cutting edge filter comes with:

- High Power UVC that will give you clear water, guaranteed
- Mechanical filtration - Cypricubes, small cubes of foam that can be cleaned effectively
- Biological Filtration - Kaldnes K3 for maximum surface area

When it comes to cleaning, the winding handle on the top moves the foams around and makes it possible to clean them completely. This is different from all other pressurised filters that simply back flush, cleaning the surface of the foams but not all of the foam*.
The filter can be buried at the side of your pond so that it fits in with your garden.

*The 3000 and 4500 models have a back flush cleaning system but do not feature the Revolution winding handle cleaning or cypricube foams.

## Lotus Green Genie Hide and Waterfall

New from Lotus comes this clever and great looking waterfall. The section at the top is perfectly designed to cover a Green Genie 2, 3 or 6000 filter. Once the lid is on you can't see the filter but the water from it flows perfectly into the waterfall.

The waterfall and filter hide are very realistic and will soon disappear into your garden leaving only a natural waterfall. If you need to get at the filter for maintenance, just lift off the lid.

It's as easy as 1, 2, 3....

**Step 1:** Part bury the filter at the top of the waterfall

**Step 2:** Cover the filter with the cover

**Step 3:** Stand back and admire your waterfall

**Waterfall dimensions:** 74cm long, 50cm wide and 20cm high.

**Waterfall and filter hide:** 119cm long, 50cm wide and 40cm high.

**Filter hide and Waterfall** **£124.99**

## Hozelock Ecopower+ Filter

**2 year guarantee**

You can attach a 40mm (1½") hose to the outlet of this filter. It only goes level or downhill but this makes it more flexible than the outlet from other box filters.

- Venturi – adds air to the water, which is great for fish health and promoting growth of good bacteria
- Turbulator – for improved UV performance
- Sludge Drain for easy cleaning
- Inlet Hose size 20-40mm

When you add a pump you get the Hozelock Filtration Kit. Perfect for your first pond it contains everything you need to keep it clean and clear – guaranteed. Includes an Ecopower+ filter with UVC, a Cascade or Aquaforce pump, 7 metres of hose (5m on the Large Kit) and clips. All with the quality you'd expect from a household name. Just choose the right size for your pond.

# Pond Kits

## Complete Pond Kits

*We know it can be tricky choosing all the bits you need to make your dream pond. To make it easier we've put together a range of kits that include everything you need and lowered the price. Savings are compared with the combined price if you bought each item separately from this catalogue.*

### Basic Fountain Pond

All you need to make a nature pond of 2 x 1 x 0.5 metres deep with a max. volume of 1000 litres (220 gallons).

**Contents**

- PondKraft 750 Fountain Pump
- 35 Year Guarantee Polyex 4 x 3 metre Pond Liner
- Permalay Underlay to fit

**Kit Price** **£39.99**

Normally ~~£76.29~~ **YOU SAVE** **£36.30**

## Easy Kits - simple to install

These kits contain the popular and simple Hozelock Easyclear all-in-one filter, pump and UVC. They've been designed for fish keeping and guarantee clear water. Each kit needs only one electrical connection.

### Easy Kit 2000

Makes a fish pond of 2 x 2 x 0.5 metres deep with a max. volume of 2000 litres (440 gallons).

**Contents**

- Hozelock Easyclear 3000 Pump, Filter, UVC
- 35 Year Guarantee Polyex 4 x 4 metre Pond Liner
- Permalay Underlay to fit
- 5 metre hose (25mm) with 2 hose clips

**Kit Price** **£129.99** Normally ~~£172.98~~ **YOU SAVE** **£43.99**

### Easy Kit 4000

Makes a fish pond of 4 x 2 x 0.5 metres deep with a max. volume of 4000 litres (880 gallons).

**Contents**

- Hozelock Easyclear 6000 Pump, Filter, UVC
- 35 Year Guarantee Polyex 6 x 4.5 metre Pond Liner
- Permalay Underlay to fit
- 5 metre hose (25mm) with 2 hose clips

**Kit Price** **£169.99** Normally ~~£259.13~~ **YOU SAVE** **£81.54**

### Easy Kit 6000

Makes a fish pond of 4 x 3 x 0.5 metres deep with a max. volume of 6000 litres (1320 gallons).

**Contents**

- Hozelock Easyclear 9000 Pump, Filter, UVC
- 35 Year Guarantee Polyex 6 x 5 metre Pond Liner
- Permalay Underlay to fit
- 5 metre hose (25mm) with 2 hose clips

**Kit Price** **£219.99** Normally ~~£293.48~~ **YOU SAVE** **£74.49**

## Nexus Eazy 210/310

The re-designed Nexus Eazy uses the amazing new Micro K1 media in a mechanical filtration static bed. This gives much better mechanical filtration and clearer water. It still utilises the normal K1 media in the fluid bed for outstanding biological filtration.

Maintenance is simple and the Nexus can be installed as either gravity or pump fed. You can add more media and a bigger air pump to increase capacity.

To set up your Nexus you'll need a filter pump, an air pump and a UV to control green water. You will also need to connect to your pond using either a bottom drain or a pump. We stock all of the extras you need at great prices, give us a call and we'll talk you through the whole process.

| Model | Koi Pond Size ltr | Max Flow lph | Kaldnes Media (supplied) | Kaldnes Media (max) | Price |

## Nexus Eazy Pod and Eazy Pod Complete

This great little filter uses mechanical and biological media to provide your pond with 'Gin clear' water. It was redesigned for 2012 to include slide valves on the inlet and waste outlet. There is also a rubber connector to join the filter outlet to pipework up to 3". Each Pod comes with 35 litres of K1 Kaldnes media. Easy to clean without getting your hands wet or dirty it is the answer for medium to large goldfish and koi ponds. It is now available in three different models so you can pick the Eazy Pod that best suits your needs. Increase the capacity of the Eazy Pod Complete by installing an additional UVC such as the EVO UVC on page 55.

**Delivery charge £20.00**

# Koi Filters

## Oasis Vor-Tec Filter

The advanced design and heavy duty construction of the Vor-Tec filters offers Koi enthusiasts a range of professional filter systems which are quick to install and easy to maintain.

Vor-tec filters have a three stage filtration process:

- Vortex chamber – removes heavy sediment
- Mechanical filtration – brushes and/or foam
- Biological filtration – anti-clog flocor media

All filters come with a slide valve assembly letting you back flush/clean the vortex chamber and the brush chamber (the 12000 doesn't have the brush chamber).

They can all be supplied as either pump or gravity fed, please specify when ordering.

We can also supply these as a kit containing an Olympus Eco Filter Pump (see website for details) and a UV clarifier of the appropriate size for the filter.

## Oase Filtomatic CWS Filter System

Small, highly efficient and very low maintenance, the Filtomatic is a dream come true for pond keepers. With a hi-tech control panel, automatic sludge removal and energy saving features these easy to hide filter boxes are the latest must have of the pond world.

- Automatic interval cleaning removes sludge, nutrients and toxins
- Energy efficiency due to UV coming on when required
- Very low maintenance
- Very small footprint
- Can be buried in the ground (up to 70%)
- Hi tech control/display unit
- On screen temperature information
- Inlet 40mm (1 ½") Outlet 70mm
- Sludge Outlet 40mm

Filter Foam 2
Fine Japanese matting in a lift out chamber.
Filter Foam 1
Course Japanese matting in a lift out chamber.
UVC
Easy to remove when changing the bulb.
Filter Media
Bioballs are a home for friendly bacteria. In a lift out chamber.

velda
The experts in pond biology

## Velda Giant Biofill XL

The Giant Biofill XL is a huge filter designed for heavily stocked ponds. Its innovative design centres on lift out chambers that make for simple cleaning and easy customisation of the filter. The water has to take a long route through the filter and this means that it is cleaned very effectively. Supplied with the filter are bio-balls that encourage the growth of friendly bacteria and Japanese matting that removes the finest dirt particles. The filter has two ports to fit either UVCs or heaters, so you can increase the UV capacity if you need to, swap them out for heaters in the winter or have one of each. A UV comes with the kit but is not included when you buy the filter only. The complete sets include a Velda High Stream Pump (see our website for details) and a Velda Silenta 300 air pump to help the growth of friendly bacteria in the filter.

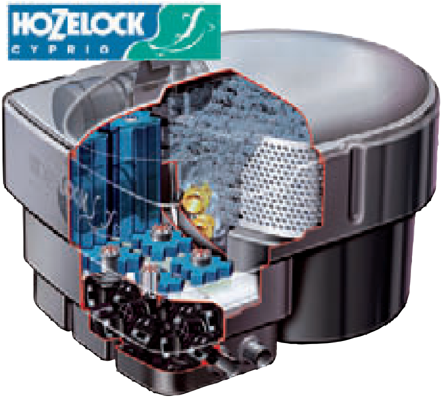
## Hozelock Trinamic



HOZELOCK
CYPRIO

The Hozelock Trinamic koi filter is easy to maintain and gives excellent water clarity and purity for optimum fish health.
As water enters the filter a Venturi adds oxygen, the water then passes through bio media chamber where the Kaldnes K3 produce the strongest, most efficient bacteria culture.
A series of fine foams then remove any solid matter from the water before it returns back into your pond. Cleaning is via easy-to-use sludge drains and an indicator lets you know when the foams need cleaning.
As a guide the Trinamic will support 900cm of fish.
The complete kit includes an Aquaforce 8000 pump (p. 30) and a Vorton 18 UVC (p. 54).

- Outlet: 2 x 40mm
- Inlet: 40mm

| | |
|---|---|
| **Trinamic 12,500 litre filter only** | £319.99 |
| **Trinamic 12,500 Litre Kit** | £599.99 |

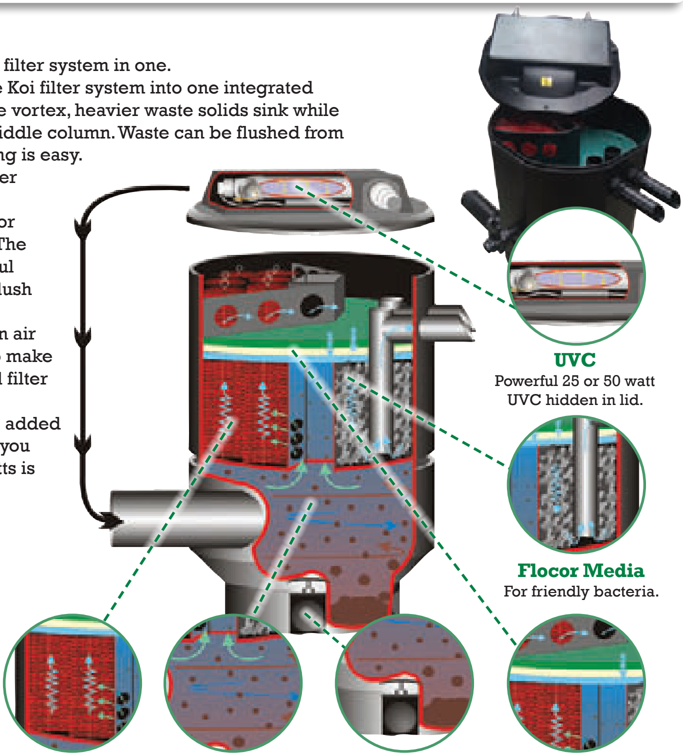
# Koi Filters

## Xtreme Max Filter

All the benefits of a multi chambered filter system in one.
The Xtreme Max combines an 8 stage Koi filter system into one integrated vortex chamber with easy flush. In the vortex, heavier waste solids sink while cleaner water rises up through the middle column. Waste can be flushed from the filter via the slide valve so cleaning is easy.
Flocor™ media, multiple layers of filter foams, brushes and activated carbon are combined to create a huge area for mechanical and biological filtration. The activated carbon also removes harmful toxins. The bio chamber has its own flush valve for quick and easy cleaning.
Xtreme filters can be supplied with an air pump fitted in the lid. This adds air to make the friendly bacteria in the biological filter grow faster and work even better.
A built in Ultra Violet Clarifier can be added which eliminates green water giving you a clear pond. A choice of 25 or 50 watts is available.

- Highly efficient
- Pump or gravity fed
- Can be partly buried
- Optional Internal Air Pump
- Clear Water Guaranteed (on UV models)

*Recommended pumps are:*
*CP25 needs Olympus Eco 5000*
*CP50 needs Olympus Eco 8000*
*see our website for details.*



**UVC**
Powerful 25 or 50 watt UVC hidden in lid.

**Flocor Media**
For friendly bacteria.

**Brushes**
Remove large solids and are easy to clean.

**Vortex**
Separates out the largest solids.

**Drain Valve**
For easy cleaning.

**Foam Layers**
Remove the finest solid particles.

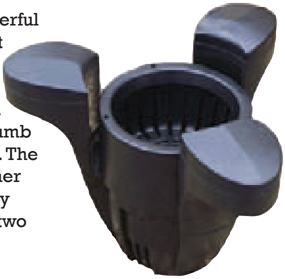
## PondKraft Powered Surface Skimmer

**1 year guarantee**

These skimmers have powerful built in pumps. Just connect to the electricity supply and float the skimmer on your pond. There's no need to buy another pump or plumb it into your existing system. The pump draws leaves and other surface debris into an easily emptied basket. Comes in two sizes.



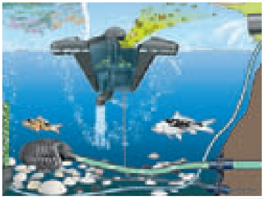
| Model | Suit Pond Surface area | Running Cost Watts | Price |
|---|---|---|---|
| **2500** | 20m² | 45 | **£69.99** |
| **4000** | 40m² | 70 | **£89.99** |

## Swimskim CWS

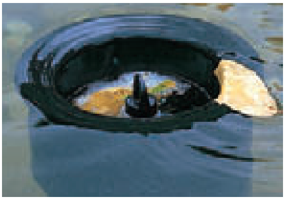
This floating skimmer from Oase clears the pond surface of leaves and other debris that cause pond problems. It has a built in pump that drags the debris into an easily emptied basket. There's a whirlpool feature that stirs up the pond bottom and an aerator function that supplies the pond with valuable oxygen.

- 3500 lph pump
- 600 lph aerator function
- For ponds up to 50m²
- Only 45 watts
- 3 year guarantee

**£199.99**



**Replacement foams available**
**call us on 01904 696933 for details**



## PondKraft Pond Surface Skimmer

This skimmer has a base that sits on the bottom of the pond. A riser pipe takes the skimmer head to the surface. Can be used in depths of between 300-800mm and will self adjust for variations in the water level up to 160mm (max. depth is 800mm). Use a 25-40mm hose to connect it to a solids handling pump with a flow rate of 4000-16000 lph. Ideal for use with the PondKraft Eco Dual (p.32) or the Oase Aquamax Premium (p.33).

**£39.99**

## A. Velda Classic Pond Bottom Substrate

In a natural pond most of the biological activity takes place at the bottom. This substrate gives your pond the same solid foundation. Chosen to promote the growth of friendly bacteria and other micro organisms a covering of substrate is the best way to achieve a natural balance. 1 bag covers approx 1m².

**10 Litres** **£9.99**

## B. Velda Superdensa Oxy Plant Substrate

Soil substitute for oxygenating plants. By not adding soil to the pond you reduce the nutrients which cause algae growth. You're also giving oxy plants the right start so they'll soon be drawing nutrients from the water and reducing algae growth even more.

**10 Litres** **£11.99**

## C. Velda Lelite Water Lily Soil

A specialist water lily soil fortified with blue loam.

**10 Litres** **£10.99**

## D. Moerings Pond Plant Soil

Superb quality aquatic plant soil from Holland. Available in 3 sizes.

| | |
|---|---|
| **10 Litre** | **£8.99** |
| **20 Litre** | **£13.99** |
| **40 Litre** | **£26.99** |

## E. Velda Pond Gravel

Perfect for the top of your pots. In 8 litre bags in a choice of 2 gravel sizes.

| | |
|---|---|
| **Pond Gravel 4-6mm** | **£6.49** |
| **Pond Gravel 12 to 16mm** | **£6.49** |

## F. Hessian Squares

18" squares of hessian to line your planting baskets. Sold in packs of 3.

**£1.49**

H
Floating Plant Island

## G. Velda Round Floating Planter

A simple but brilliant idea! A covered styrofoam floating ring allows limitless options for pond planting. Can be linked together. Available in 2 sizes.

**25cm** **£10.99** **35cm** **£15.99**

## H. Velda Square Floating Planter

Just like the round one, only square! This means you can join them together to make a larger island (linking loops included) or even a chequerboard effect. Available in 2 sizes.

**25cm square** **£10.99** **35cm square** **£15.99**

## I. Velda Pond Plant Planting Socks

The plant sock is ideal for covering pond edges and curves with plants. It stops the soil from leaching into the water and controls root growth. Available in 2 sizes.

**10 x 80cm** **£8.99** **15 x 80cm** **£9.99**

## J. Velda Super Plant Growth Balls XL

These fertiliser balls can be placed at the roots of your pond plants to ensure fabulous growth and beautiful flowers. Easy to use and do not encourage algae growth.

**Growth Balls** 1.21kg **£9.99**

## K. Velda Illuminated Floating Planter Island

Enjoy that special plant at night too with this light-up floating island. 35cm across and with a weatherproof transformer the island is simple to set up and great to look at.

**5m cable** **£49.99**

## Ubbink Square Planting Bags

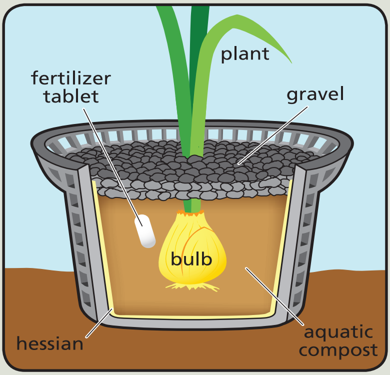
Special design contains plant roots and prevents excessive growth. No hessian liner is needed as the fine weave of the planter stops soil from escaping into the water. The flexible base means that it can be stood on an uneven pond bottom or shelf. Sold in sets of two.

| | | |
|---|---|---|
| **Small** | 18 x 18 x 18cm | £2.99 |
| **Medium** | 25 x 25 x 20cm | £3.49 |
| **Large** | 30 x 30 x 25cm | £3.99 |

## Planting Baskets

Quality aquatic planting baskets. Unlike normal pots they let the water flow freely in and out allowing plants to take up more nutrients from the water. Sold in packs of three unless stated.

| | | |
|---|---|---|
| **3 x Small Round** | 13 x 13 x 10cm | £2.99 |
| **3 x Mini Square** | 11 x 11 x 11cm | £2.99 |
| **3 x Medium Square** | 19 x 19 x 9.5cm | £4.99 |
| **3 x Medium Round** | 22 x 22 x 12.5cm | £4.69 |
| **3 x Large Square** | 27 x 27 x 19cm | £6.99 |
| **3 x Crescent** | 45 x 18 x 15cm | £7.99 |
| **1 x Extra Large Square** | 35 x 35 x 27cm | £4.99 |



## Planting Tips:

Plant your basket as in the diagram. You don't need hessian if you use a planting bag or sock.

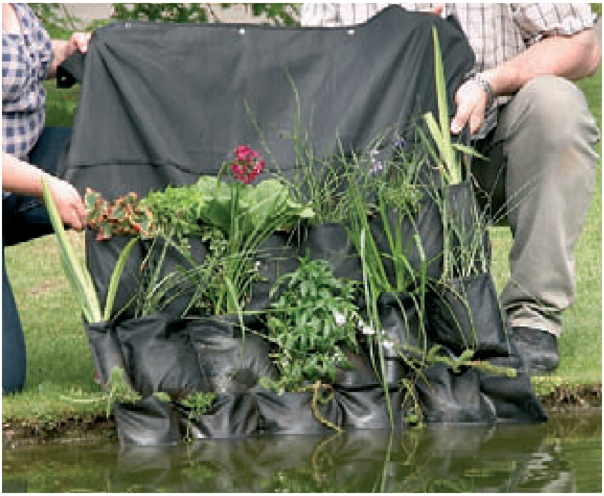
When you've planted your basket, immerse it in a bucket of water before putting it in the pond. This stops soil from fouling the pond.

eco friendly

## Velda Quick Start Plant Basket

A complete product for all kinds of pond plants. Contains substrate that replaces soil giving plants the right start, strong growth and beautiful flowers. Biodegradable over 10 years to be truly sustainable.

**25cm Basket** with substrate £9.99



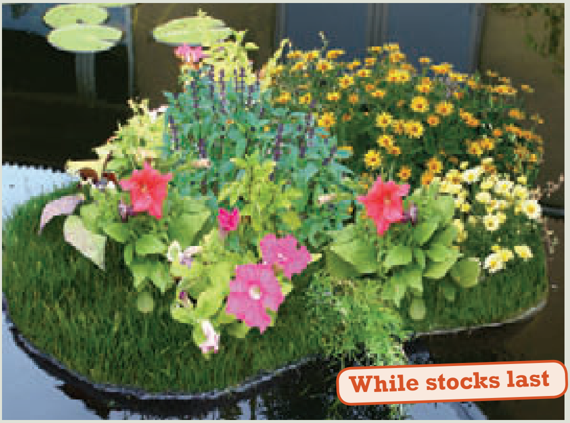
Over-growing Mat
velda

## Velda Edging Bag Plant Holder

Perfect if you don't have a planting shelf. This edging bag plant holder is made from a black fine woven material. It has three tiers of pockets, with a total of 18 pockets of various sizes. Comes with 5 metal fixing spikes. 108cm wide x 105cm high.

**£15.99**

## Freedom Ponds – Islandscape



### Freedom Ponds – Islandscape

Create your very own island in the middle of your pond

- Grow many different varieties of plant
- Gives shade and protection to fish and wildlife

when you buy 2 Super Saver bags.
Mix and Match the cheapest is FREE

**Save up to £35.99**

## Bradshaws' Pond Sticks

Our most popular food, suitable for all types of pond fish. Pond sticks float on the surface and are easily crushed to allow smaller fish to feed on the crumbs. For feeding in the April to September period.

| | | |
|---|---|---|
| **1 Kg Re-sealable Pouch** | **£10.99** | *£10.99 per kilo* |
| **2 Kg Re-sealable Pouch** | **£17.99** | *£9.00 per kilo* |
| **3.6 Kg Super Saver Bag** | **£25.99** | *£7.43 per kilo* |

## Bradshaws' Pond Flake

This easily digestible food is quite delicate so any size of fish can eat it by nibbling the edges of the flake or eating the crumbs. It floats on the pond surface.

| | | |
|---|---|---|
| **675g Re-sealable Pouch** | **£17.99** | *£26.65 per kilo* |
| **1350g Super Saver Bag** | **£29.99** | *£22.21 per kilo* |

## Bradshaws' Sinking Pellet

These are pellets that sink straight to the bottom of the pond (unless they get eaten on the way down!). It's designed for bottom feeding fish like tench, sterlet and sturgeon.

| | | |
|---|---|---|
| **2.5 Kg Re-sealable Pouch** | **£17.99** | *£7.20 per kilo* |
| **5 Kg Super Saver Bag** | **£29.99** | *£5.99 per kilo* |

## Bradshaws' Peaches and Cream

A floating variety stick food for all pond fish.

| | | |
|---|---|---|
| **1 Kg Re-sealable Pouch** | **£15.99** | *£8.89 per kilo* |

# Fish Food

## Tetra Floating Sticks

A complete staple food for all pond fish. The UK's best-selling pond food. For feeding at all times of the year when the water temperature is above 10° C, this food floats on the surface but softens quickly allowing fish to feed easily.

| | | |
|---|---|---|
| **780g** | **£14.49** | *£18.58 per kilo* |
| **1.15kg bucket** | **£19.99** | *£17.38 per kilo* |
| **1.68kg** | **£23.99** | *£14.27 per kilo* |
| **3kg** | **£36.99** | *£12.33 per kilo* |
| **4.2kg** | **£44.99** | *£10.71 per kilo* |

## Tetra Koi Sticks

A complete diet formulated for the needs of koi. A floating food that can be fed when water temperature is over 10° C.

| | | |
|---|---|---|
| **1.1kg** | **£20.99** | *£19.08 per kilo* |
| **1.5kg bucket** | **£26.99** | *£17.99 per kilo* |

# Fish Food

**Control Panel**
Set feeding times
and quantities
digitally.

## Velda Pro Feeder

This hi-tech fish feeder from Velda is the last word in pond feeders. The main body can take any kind of food (even flake food) up to 12mm without clogging due to its interchangeable delivery screws. The electronic control unit allows digital programming of up to 20 feeds per day. Mains powered with a battery back-up and complete with a strong bracket/stake for mounting, this feeder is the perfect solution for regular feeding with complete control either during holidays or simply to help you out with your busy lifestyle. 3 litre capacity.

**£259.99**

## Fish Mate P7000 Auto Fish Feeder

Electronic feeder suitable for most popular sticks and pellets. It is battery operated and holds a whopping 7 litres of food. Meal times and sizes can be programmed. Requires 4 x 'C' batteries, not included.

**£56.95**

## Hozelock Automatic Fish Feeder

This automatic fish feeder from Hozelock has a 1 litre capacity and can be set to feed your fish up to six times a day (2-6g of food at a time), great for weekends away and holidays. Suitable for use with pellets or sticks. It comes with a metal arm that suspends it over the pond. Built in stake just pushes into the ground.

**Was ~~£79.99~~ Now £64.99**

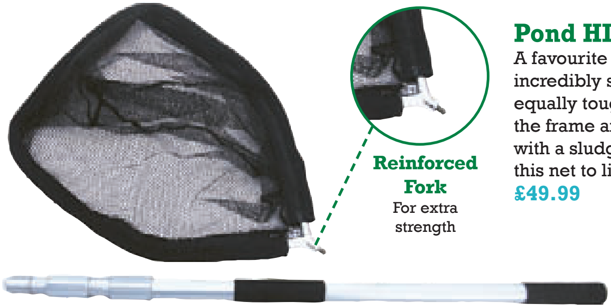
| **Black 10 x 6m** (32 x 19') | **£31.99** | | |

## Velda Pond Brush

A special brush designed for cleaning your pond liner safely but effectively. Length 2metres.

**£20.99**



**Reinforced Fork**

For extra strength

## Pond HD Heavy Duty Net

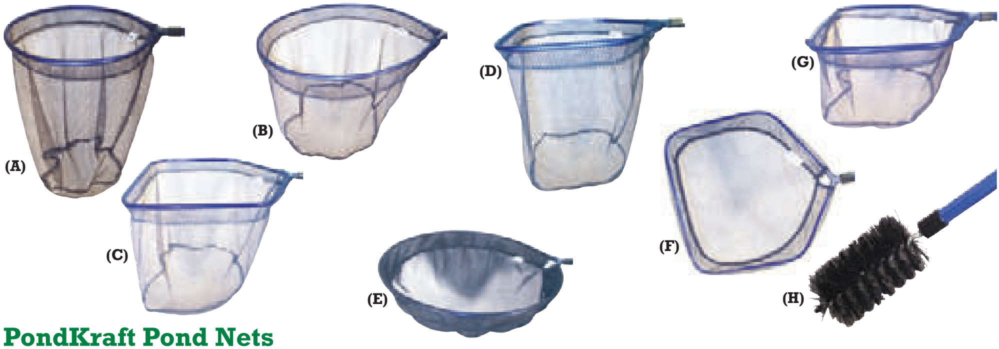
A favourite of Landscapers this net is built to last. An incredibly strong aluminium handle supports the equally tough net head. The nets themselves zip onto the frame and can be changed over quickly. Comes with a sludge net and a fish catching net. You can use this net to lift out rocks or a pump!

**£49.99**

## Oase Algae Nets

A firm favourite with Bradshaws' customers, these very fine mesh nets are ideal for removing algae or duckweed. Complete with anodised aluminium handle. Available in 3 sizes.

| | | | | | | |
|---|---|---|---|---|---|---|
| **Small** | 113cm | (fixed handle) | **£15.99** | **Large** | 180cm (telescopic) | **£27.99** |
| **Extra Large** | 230cm | (telescopic) | **£29.99** | | | |



## PondKraft Pond Nets

A net for every job! The Y shaped neck of all the PondKraft nets is metal and very sturdy. The metal handles fit all of the nets so you can have a net for each job but only need one handle. We've got 2 lengths of handle to choose from fixed and telescopic.

**BUY ANY 3 ITEMS** from this range and get **£5** off

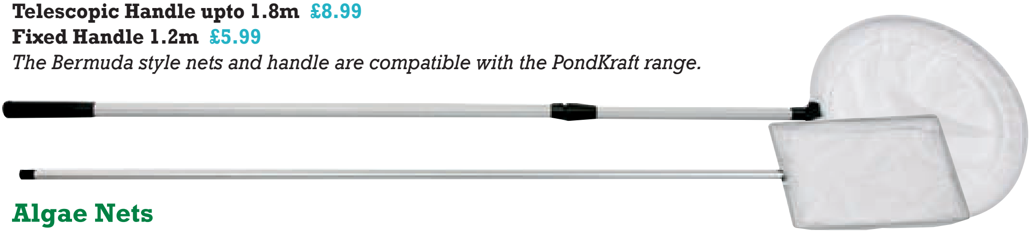
**(H) Blanket Weed Brush Head** **£6.99**
**Telescopic Handle upto 1.8m** **£8.99**
**Fixed Handle 1.2m** **£5.99**

*The Bermuda style nets and handle are compatible with the PondKraft range.*



## Algae Nets

Perfect for removing algae or duckweed. Available in two sizes.

| | | | |
|---|---|---|---|
| **Rectangular** | 20 x 30cm head | 1.2m handle | **£8.49** |
| **Round** | 30cm dia. head | 1.8m telescopic handle | **£17.99** |

## Pond Maintenance Kit

This pond maintenance kit has everything you need for catching fish, removing leaves and debris, clearing blanket weed, cleaning waterfalls and brushing pond edging. Telescopic pole packs away very small for easy storage.

Kit includes:

- 40cm/16" catching net
- 35cm/14" round skimming net
- sturdy pond brush
- 4 part strong telescopic pole, max length 180cm

**£26.99**

# Power Supply

## Junction Box for Standard Cable

Power up to 6 electrical items from one cable. Full instructions make installation easy. The units each have a 5 amp fuse and spare fuses are available. The maximum load for each outlet is 360 watts, the total load on the Junction Box should not be more than 1200 watts.

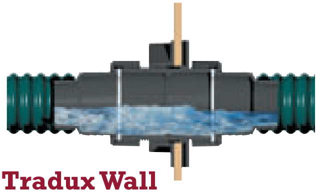
**3 Way** **£24.99** **4 Way** **£28.99**

**6 Way** **£47.99** (with quick change fuse)

## Junction Box for Armoured Cable

Just like the standard one but with a fitting for armoured cable on the 'inlet' from the house/garage. Outlets are for normal cable to lead to the appliances. The maximum load for each outlet is 360 watts, the total load on the Junction Box should not be more than 1200 watts.

**3 Way** **£34.99** **6 Way** **£56.99**



## Tradux Wall and Liner Transition

Forget trying to hide a cable or hose as it runs over the edge of the pond. Tradux enables you to put cables or hoses through the side of a pond liner below the surface of the pond. Pumps, filters and lights can be invisibly supplied with power or water flow.

**£28.99**

## Underwater Connector

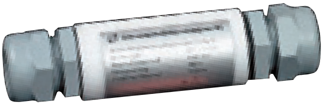
Makes a safe joint between two cables underwater. IP68 rated.

**£18.99**

## Standard Electrical Cable

Waterproof, 3 core, 0.75mm$^2$ cable sold by the metre. Use to connect filters, ultraviolet clarifiers and junction boxes.

**£1.49 per metre**



## Oase Underwater Connector

Designed to let you make a safe joint between two cables underwater. Joins cables from 7mm to 14mm.

**£46.99**

## Weather Proof Plug and Socket

A socket and plug that lets you join two cables together then disconnect them without unwiring. Perfect for taking a pump out in the winter or adding a heater for a few months.

- Takes cables from 5mm up to 9mm in diameter
- Seals to IP68 standard

**£13.99**

## Powersafe Remote Control Socket Box

This great product from Blagdon allows you to control power in the garden at the push of a button. From the remote control keypad you can turn on and off the 3 sockets. The 'at a glance' power indicators let you know what's going on at any time.

- Weatherproof outdoor IP56 remote control switching unit
- Weatherproof outdoor IP56 plug and socket power in and outlets
- Individually fused outlets
- Clear labels for each appliance
- Clear instructions
- Power cut memory, restores pre power cut status
- Easy to install
- Plug and socket power in and outlets provided
- Easy access to individual fuses
- Wall or post fixing bracket
- Compatible with the Powersafe range
- Can be used to replace an existing junction box

**3 Way Powersafe Remote Control Socket Box** **£104.49**

## Blagdon Powersafe Twin Outdoor Socket

*If you can wire a plug you can fit this!*

Easy to fit twin socket for the garden. Takes two 3-pin plugs and one Powersafe plug that can be wired to any garden appliance. Can be wall mounted or fixed with optional spike. Comes with:

- 5m cable to go through the wall and into the house/garage
- Drill bits (masonry and wood)
- Sealing putty
- Cable clips, screws and wall plugs
- Screwdriver and plug for the inside end

Total load for the unit is 2200 Watts (enough for a Pond Vac or lawnmower)

**£34.99**

## Powersafe Easy Fix Ground Spike

Allows convenient and safe placement of the Powersafe range of switch and socket boxes. Can mount 2 socket or switch boxes.

- Allows installation away from walls
- Gives electrical safety standards recommended 30 cm ground clearance
- Can be concreted in or hammered into firm ground

**Was** ~~£12.99~~ **Now** **£6.99**

WATER GARDEN CIRCUIT BREAKER

## Blagdon Powersafe Water Garden Circuit Breaker

Electrical equipment in the garden should always have a circuit breaker for added safety. These circuit breakers just plug into the socket and then the appliance plugs into that. Great for pond vacuums.

**£16.99**

# Power Supply

## The Armoured Garden Power Supply Complete Kit

BLAGDON
POWERSAFE
ARMOURED GARDEN
POWER SUPPLY

**Contains:**

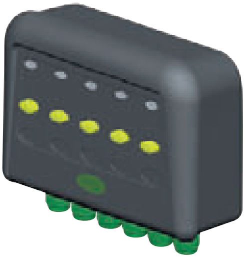
- 5 metres of rubber wire (pre-wired to plug and socket)
- Plug and socket armoured cable to rubber cable adaptor (pre-wired x 2)
- Plug and socket adapter bracket (with fittings x 2)
- 50 cm of rubber cable (pre-wired to plug)
- 'Armoured cable buried' warning tape
- Powersafe circuit breaker
- Metal sheathed armoured cable 5 metres long
- 15cm wood drill bit (for windows or door frames)
- 30cm masonry drill bit (for walls)
- Weatherproof sealing putty
- Plug and socket switchbox (pre wired to the 50 cm of rubber cable (pre-wired to plug))
- Powersafe triple outlet switchbox (pre-wired with fittings)

**Power Supply Kit 5m** **£59.99**

## Blagdon Powersafe Weatherproof Plug and Socket

This is a socket and plug that lets you join two cables together and then disconnect them without unwiring. Perfect for taking your pump out of the pond for the winter. Takes cables from 5-9mm in diameter. A cover is included to blank off the socket when not in use. Full instructions included.

**£14.99**



## Blagdon Powersafe Switch Box

Allows you to connect up to 5 electrical items to one cable. Full colour diagram makes installation a doddle and the LEDs show which equipment is on or off at a glance. 2-year guarantee and push-button on/off switches. It has individually fused outlets which means that if your UVC blows a fuse your pump should stay on. The maximum load for one of the outlets is 1000 watts and for the remainder it is 300 watts each.

# Pond Treatments

BLAGDON
Green Away

## Blagdon Green Away

A great short-term solution to green water, as it will kill off the algae that cause the problem. The dead algae will sink to the bottom of the pond so use in conjunction with a sludge treatment.

| | |
|---|---|
| **250ml** treats 11365 litres | £9.99 |
| **1 litre** treats 45460 litres | £19.99 |

Bio-
Oxydator

## Velda Bio Oxydator

Removes sludge from the pond bottom. It works by adding oxygen that promotes the development of micro organisms that convert the sludge into nutrients.

| | |
|---|---|
| **1000ml** treats 10m² | £8.99 |
| **2500ml** treats 25m² | £15.99 |

BLAGDON
Duckweed Buster

## Blagdon Duckweed Buster

A natural product, prevents growth of duckweed by changing water chemistry and creating conditions which prevent it spreading. Does not affect other plants or fish.

| | |
|---|---|
| **250ml** treats 2273 litres | £11.99 |
| **500ml** treats 4546 litres | £19.99 |
| **1 litre** treats 9092 litres | £34.99 |

BLAGDON
Fresh Start

## Blagdon Fresh Start

Removes chlorine from tap water. Use when you fill your new pond or top-up an existing pond.

## Fish Illness

Many fish illnesses are caused by poor water quality and if this is the real reason for your fish's illness then using a chemical to treat the symptoms may not be the best course. We recommend that you test your water before commencing any course of treatment.
See Page 81 for testing kit.

Make Tap Water Safe for your fish

Get Your Plants Growing
250ml

*Specially formulated by a leading manufacturer for Bradshaws, there's a treatment for each common pond problem. 250ml treats 5688 litres, 500ml treats 11350 litres and 1 litre treats 22750 litres.*

## Bradshaws' Make Tap Water Safe for Fish

Tap water contains chlorine which is harmful to fish and can cause them stress. Whenever you top up your pond, use this treatment to make it safe.

**250ml** **£6.99** **500ml** **£9.99**
**1 litre** **£16.99**

## Bradshaws' Make Your Fish Healthy

Cures and protects fish from bacterial or parasitic infection, including white spot, flukes, slime disease, flicking, raised scales, inflamed gills and more.

**250ml** **£6.99** **500ml** **£9.99**
**1 litre** **£16.99**

## Bradshaws' Get Rid of Blanketweed

This product acts to remove blanket weed in four different ways, helping you to beat the pond keeper's worst enemy.

**250ml** **£6.99** **500ml** **£9.99**
**1 litre** **£16.99**

## Bradshaws' Water Feature Cleaner

Gets rid of the green and brown slimy build up of gunge on your water feature or waterfall. Just add to the water. Treats 1125 litres.

**250ml** **£6.99**

## Bradshaws' Get Rid of Green Water

Suspended algae makes your pond look like pea soup. Use this to kill it off.

**250ml** **£6.99** **500ml** **£9.99**
**1 litre** **£16.99**

## Bradshaws' Get Rid of Sludge

Over time a layer of sludge builds up on the bottom of most ponds. Get Rid of Sludge will break down this layer of gunge and make the pond a prettier and healthier environment for your fish.

**250ml** **£6.99** **500ml** **£9.99**
**1 litre** **£16.99**

## Bradshaws' Get Your Filter Going

Whenever you clean out your filter or buy any new fish you should give your filter a boost by adding Get Your Filter Going.

**250ml** **£6.99** **500ml** **£9.99**
**1 litre** **£16.99**

## Bradshaws' Get Your Plants Growing

This liquid plant food was designed for pond plants, reeds, lillies, marginals and floating plants. Does not encourage the growth of algae or blanket weed.

**250ml** **£6.99**
**1 litre** **£16.99**

# Blanket Weed

## Easy Weeder

The Easy Weeder is specially designed to make pulling blanket weed from your pond a doddle. The 'bottle brush' end traps the blanket weed, then simply twirl the weed around the wand. Retract the sliding handle and the weed will fall off onto the compost heap. 1.8m long.

**Was** ~~£29.99~~ **Now** **£24.99**

## Cloverleaf Blanket Answer

An award winning product, loved by koi keepers nationwide. The blend of enzymes and minerals are designed to combat blanket weed while still being safe for your fish, plant life and biological filtration. Simple to use, just add the powder to a watering can of pond water and sprinkle over the surface of the pond. No need to turn off your UV during treatment. One dose is usually enough.

| | | |
|---|---|---|
| **200g** | Treats 2,500 litres | **£6.49** |

T-Flow Tronic 05
VELDA

Note: The T-Tronic is safe for your fish, but very high concentrations of copper ions may be harmful to frogs and other amphibians.

## Velda T-Tronic

The T-Flow is the improved version of the popular I-Tronic. It introduces copper ions into the pond which stops the formation of blanket weed and suspended algae. It uses the same technology that stops bottled water from going green on the supermarket shelf. Replace the copper anode each year.

| Model | Pond Size ltr | Price | Replacement Anode |

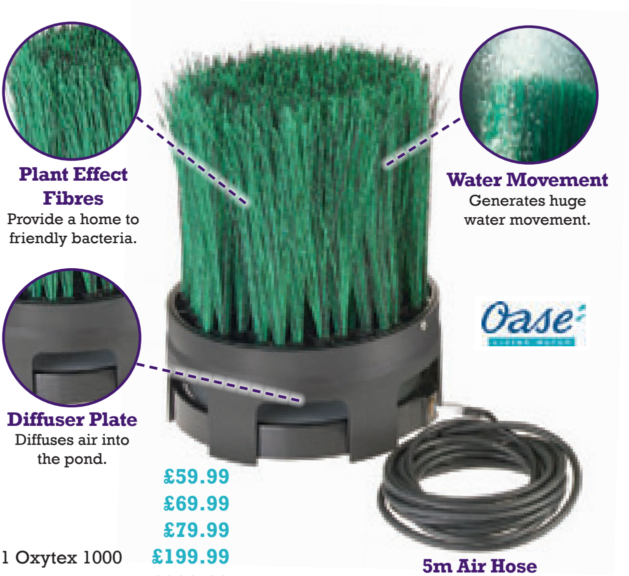
# Air Pumps

*Air pumps keep your pond healthy and oxygenated, this is especially important for your fish in hot sunny weather when there's less oxygen in the water.*

## Oase Oxytex

**2 year guarantee**

A combination of aeration, circulation and settlement, supplementing any filter system. Air is pumped through the Oxytex and the fibres create ideal conditions for bacteria to thrive and break down pond waste. The column of aerated water sets up a circulation system which drags unaerated and dirtier water into the bottom of the Oxytex and the cycle starts again. The Oxytex is guaranteed to increase the capacity of a Filtomatic by 25% and will have a dramatic effect on other filters. Available separately or as a set with an Oase Aquaoxy air pump.



**Plant Effect Fibres**
Provide a home to friendly bacteria.

**Water Movement**
Generates huge water movement.

**Diffuser Plate**
Diffuses air into the pond.

**5m Air Hose**

PondKraft
Best Seller

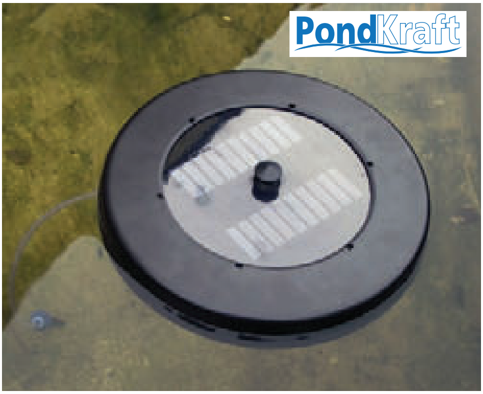
## PondKraft Solar Oxygenator

**1 year guarantee**

No need to plug into the mains, just put the solar panel in a sunny spot and it starts automatically. This means that your fish get extra oxygen when they need it most (in hot weather) and you don't have to pay any running costs or deal with any wiring. Suitable for a small to medium sized pond.

- 100lph capacity
- 2m airline with 1 air stone
- 3m cable to solar panel

**£29.99**



## PondKraft Solar Floating Oxygenator

**1 year guarantee**

The simplest air pump ever. Take it out of the box, place it on your pond and that's it. When the sun shines on the panel the pump will work adding oxygen to your pond. No running costs, no cables and no worries.

- 100lph capacity
- 50cm airline with air stone

**£34.99**

SILENTA PRO
GIANT airstone

## Velda Silenta Pro Air Pump from £89.99

**2 year guarantee**

Professional quality air pumps for the serious pond keeper. Silenta Pro are meant to be placed outside in all weathers and come complete with 5 metres of 9mm airline and a giant airstone.

| **6000** | 6000 | 2.5m | **£209.99** |

## PondKraft Twin Outlet Solar Oxygenator with Battery

**1 year guarantee**

This pump will charge when the sun is shining, you can set it to run either in the day or at night time using a button on the panel. It's better for ponds to have air added during the night as this can be when oxygen levels are at their lowest.

- 200lph capacity
- 2 air stones
- 2m airline with each stone
- 3m cable to solar panel

**£49.99**

PondKraft

## PondKraft Superbright LED Lights

**1 year guarantee**

High power pond lights from PondKraft in either a single or set of three. Each comes with three super bright LEDs that will last far longer than ordinary bulbs. Included are a base, optional ground spike, fully adjustable bracket and transformer. Cable length 2m to transformer and 5m to each light.

| | |
|---|---|
| **3 Light Set** | £69.99 |
| **Single Light** | £29.99 |

## Oase Luminis 3 Light Set

**3 year guarantee**

Perfect for lighting your pond or garden. In a set of 3 these lights have weighted bases and adjustable heads with stainless steel details. The lights are very small but powerful with 1 watt LEDs. This makes them very cheap to run and removes the need for changing bulbs.

**Oase Luminis 3 Set** RRP ~~£174.99~~

£69.99

## Hozelock Aquaglow LED Lights

These underwater lights feature LEDs with a very long life, meaning you don't have to change bulbs as often. They are fully modular with each light connected individually to the central cable (7.5m) from the low-voltage transformer. This means you can place the lights where you want them. Complete with 3 of each blue, green and clear lenses to change the look of your lights.

**Aquaglow LED Lights** £74.99

## PondKraft Floating Fountain with Light and Mister

**2 year guarantee**

This fountain floats on the surface of your pond and provides a focal point both day and night. The powerful (3000 lph) pump comes with a built in mist generator and a ring of LEDs lighting the fountain. It also comes with 2 fountain heads, one makes a dome shaped fountain filled with mist while the other produces a tall (2 metre) spray allowing the mist to spread over the surface of your pond.

**£79.99**

## PondKraft LED Lights

**1 year guarantee**

These powerful spotlights have 12 LEDs built into each light. They can be used in or out of the pond and come with a choice of different coloured lenses white, blue, green, red and yellow. There's a 3m cable to the outdoor transformer and then a 5m cable to the first light with 1 metre between each light (on the 3 set).

**3 Light Set £29.99 Single Light £14.99**

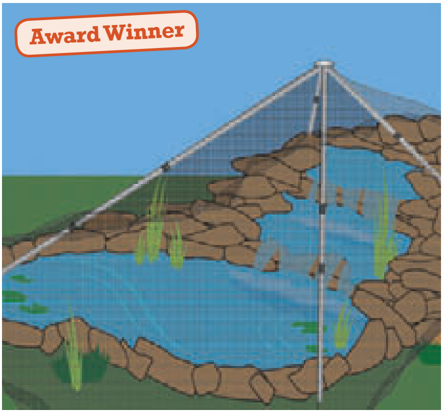
## Pond Pyramid Net

This innovative new product from United Aquatics recently won the Best New Product award in the Water Gardening category at the Aqua Telford 2011 show.

The Pond Pyramid Net keeps leaves, debris and predators out of your pond. The frame's telescoping design allows it to be placed on uneven ground, and the net's aluminium frame means it is rust proof and built to last. The mesh netting comes already pre-assembled on the frame, meaning that no assembly is required. 30 stakes are included to ensure that the net stays in place. Installation is quick and easy. Simply pull the net out of the box, place the net and the frame on top of the pond and secure the net with the stakes.

- Great for ponds up to 4m x 5m
- 6m x 6m (20' x 20'), 6mm (¼ ") mesh netting.
- Folds to less than 1m tall for easy storage.

**£99.99**



Reigerstop
Heron Stop
velda

## Heron Lookalike

Having this realistic heron near your pond should help stop the real thing. Herons are territorial so usually avoid each other. We find these are most effective if you move them around occasionally.

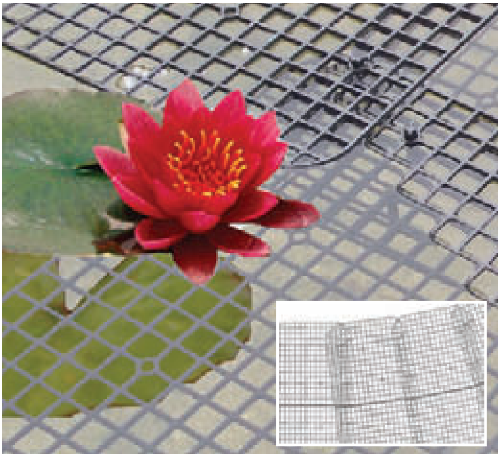
**£19.99**

## Velda Heron Stop Fence

A near invisible fence for around the pond with jingle bells that ring when it is touched. Will scare off a heron for days after it is triggered. Will protect 12.5 metres of pond edge. Includes:

- 8 rods
- 25 metres of nylon line (set up as 2 strands)
- 8 jingle bells

**£20.99**



## Netfloat Heron Deterrent

Protect your pond from predators such as herons and cats. Less obtrusive than conventional netting, Netfloat fits any shape of pond. Each section is 37 x 70cm and they can be overlapped and joined together with the pegs that are included. You may not need to cover the whole pond, only the edge. For pond maintenance, just lift out and replace individual sections. Sections are easily cut to allow for features or plants in your pond. When laid out the pack of 10 mats will cover approx. 3.5 metres of pond edge.

**Netfloat pack of 10 mats**
(with fitting instructions) **£27.99**

Pond
Protector
velda

## Velda Pond Protector Electric Fence

A complete kit to make a 40m fence around your pond. It gives animals a harmless but deterrent shock when they touch it. Kit includes:

- Transformer
- 10 Insulated poles
- 80m of fence (40 metres with 2 strands)

Need the fence a little longer? The extension set will increase the fence length to 80 metres of two strands.

| | |
|---|---|
| **Pond Protector Fence** | **Was** ~~£74.99~~ **Now £69.99** |

From only £109.99

# Oase Pontec Pondopress Pressurised Filter and Pump Kit.

## 2 year guarantee

Pontec Pressurised Filters offer guaranteed clear water and ease of cleaning. Made by German company Oase the Pontec range is their entry level product but it still has all the features you need and is high quality too. You can partially bury the filter, making it easier to hide and the water coming from it can easily be directed down a waterfall or stream.

**In the kit you'll get:**

- **Pressurised Filter with unique cleaning function and UV clarifier**
- **Filter pump that can handle solids up to 4mm**
- **4.5 metres of hose and clips**

The UV clarifier removes the green algae that make your pond look green. The cleaning function is a handle that you pump up and down, this agitates the foams in the filter and removes some of the dirt that can then be flushed away by reversing the pump's flow direction through the filter. You need to swap the hose connections round to do this but it only takes a couple of minutes.

| Set | Pondpress Filter | UVC Power | Pontec Pump | Nature Pond Volume (lph) | Goldfish Pond Volume (lph) | Price |

## Velda Floating Fish Dome

This dome floats on your pond and magnifies your fish as they swim inside. Just pop a handful of food into the dome and watch as they come right out of the water.

- Perfect gift for the pond keeper who has everything!
- Simple to install, put it in upside down, submerge then turn the right way up while under water.

**Only £89.99**
